HERRIOT PLEDGES
FRANCE TO PLAN
OF ARBITRATION
FOR WORLD PEACE

Asks for Protection of
Smaller Countries "With
Justice and Force," in
Stirring Speech.

LEAGUE COVENANT
GUIDES FRANCE

Names "Arbitration, Security
and Disarmament" as
Trinity to End Conflict—
Is Acclaimed by Assembly

By the Associated Press.
GENEVA, Sept. 5.—France today pledged her adherence to the principle of arbitration and through the lips of Premier Herriot gave to the world a message generally acclaimed here as replete with hope for world peace.

In an address to the Assembly of the League of Nations, which was frequently interrupted with handclapping, M. Herriot declared that France would follow in both letter and spirit the solemn document known as the Covenant of the League of Nations, which forms the part of the treaty of Versailles, and which, in his opinion, advances any plan labeling as an aggressor any country which refuses arbitration.

The French Premier mounted the tribune in front of the assembled audience amid a hum of interest and before beginning his address received a great ovation.

Herriot began by saying that he sought the world of France to the assembly, and that word was peace.

He hoped that the United States would not refuse to continue its successful collaboration in disarmament, especially "as arbitration is the keystone of our plan."

He urged the League commission immediately to study this question of arbitration upon the successful operation of which, he believed, the tranquility of the world's peoples depended.

But arbitration must not be a trap for nations of good faith," he added.

The Premier pleaded for some system of protection for small countries, emphasizing that the great Powers could always protect themselves. Referring to Germany, he said:

"We never desired the misery of the German people. France does not live on hate."

The applause was renewed when Herriot continued that Germany, if she desired admittance to the league, should have the same treatment as other nations seeking admission. France adhered to the same content, but wanted to make it a living covenant.

"Protect Small Nations." The French Premier emphasized that the basis of the present movement to disarm the nations of the world was Article 8 of the covenant of the league, which provides that armaments shall be reduced to a point compatible with national security.

Herriot declared that France would let her policies on the treaty of Versailles, which he said, furnished a basis of security, justice and law. He cited the resolution adopted by the third assembly of the league, which, in harmony with the league covenant, gave birth to a concrete movement for the reduction of armaments. He insisted upon the importance of the fact that 18 Powers, in expressing their views on the proposed pact of mutual assistance, accepted the principle of assistance whether or not they agreed with the pact as a whole.

His cheers were given when the French Premier declared that was France here who had proposed the arbitration features of the London agreement for a renunciation of armaments. He hoped, he said, that one of the results of this assembly would be the incorporation in its program for achievement of a program for disarmament which would be a country which refused arbitration.

Baker Tells Why Pershing
Was Made A. E. F. Chief

Says Fidelity to Orders From Wilson While
He Was in Mexico and His Record
Resulted in Choice

By the Associated Press.
INDIANAPOLIS, Ind., Sept. 5.—Gen. Pershing's military record and his fidelity to orders from Washington while in command of the then Mexican punitive expedition were outstanding factors in his selection as commander of the American Expeditionary Forces in France, it is disclosed in a letter from Newton D. Baker, former Secretary of War, which the American Legion Weekly prints today.

Seven years afterward, in an issue which the Legion has devoted to commemorating Gen. Pershing's retirement from active Army service Sept. 12, the "inside story" of his appointment as commander-in-chief by the late President Woodrow Wilson, is first told, according to the story.

Records Studied.
Gen. Pershing was appointed by President Wilson on Secretary Baker's recommendation. Baker's letter shows, based on Pershing's past record. Neither the President nor the Secretary had met the man of their choice until after the selection had been made.

Secretary Baker's recommendation, approved by Gen. Hugh L. Scott, then Chief of Staff, was based, he states, on a careful study of the records of all the general officers and senior Colonels in the regular army at that time. The selection was made with special attention to the fact that the man appointed would ultimately have under his command a very large force.

Pershing's record and especially his fidelity to orders from Washington while in command of the then Mexican punitive expedition into Mexico were the outstanding factors in the choice," continues the story. "For reasons of international policy, the general had not been in the hands of the United States expedition along lines dictated purely by military considerations. In that difficult position, Pershing had proceeded strictly along the very path of honor and justice laid down by President Wilson himself."

Pershing Selected.
Baker's letter, written from his law office in Cleveland, is in full as follows: "The story you ask is interesting and has never been told, and I

know no reason why you should not have it exactly.

"When it was determined in 1917 to send an expeditionary force to France, I remarked to Gen. Hugh L. Scott, Chief of Staff, that it would be necessary to send a commander who would ultimately become commander in chief of a very large force, and asked him to have sent to my house the records of all the general officers and senior Colonels of the regular army.

"These records I studied for some days and finally, purely on the basis of the records, selected Gen. Pershing, whom I had never seen. My judgment, however, was reinforced by the fact that Gen. Pershing had been in command of the punitive expedition in Mexico, with which I had been in daily contact by telegraph, over a long period of time.

Approved by Gen. Scott.
"The punitive expedition in Mexico had a most difficult and responsible task, and its leader was required to exercise tact, self-restraint and consideration for the rights of the Mexican people in a very high degree. The desires of the President with regard to that expedition were explicit and positive, and the limitations imposed on Gen. Pershing's freedom as a military commander were dictated by considerations of public policy rather than military expediency.

Gen. Pershing met all the requirements with splendid ability and loyalty to the wishes of the President as commander in chief.

"Further, the (Mexican) expeditionary force under Gen. Pershing was the largest body of troops in active service which any American General (then on the active list) had commanded.

"After I had made my selection I submitted it to the criticism of Gen. Scott, who approved it. I then carried it to President Wilson, discussed it with him briefly, and it met with his approval. I at once arranged for Gen. Pershing to come to report to me at Washington, which he did. He and I had many conferences, he establishing himself in an office in the War Department, where, in co-operation with the Chief of Staff, the preliminary plans for the expeditionary force were worked out."

Army engineers will report to Federal Judge Farris next Tuesday how long it should reasonably take to put into operation the "Goltra fleet" of 19 barges and four tugboats, which the Judge yesterday restored to the control of Edward F. Goltra, iron manufacturer and former Democratic national committeeman.

The Judge said, in his decision yesterday, held that it was "unconstitutional, monstrous and outrageous" for officers representing the War Department to seize, as they did last year, the barges and tugboats, which cost the Government more than \$3,000,000, which Goltra obtained by contract, without rental requirement, but failed to use, and which he has refused to let the Government use, in connection with its establishment of a barge line service. Goltra obtained the contract in 1919 from Newton D. Baker, then Secretary of War.

Wants Boats in Service.
The Judge said, however, that he wished the boats to be put in service; and that if this were not done within a reasonable time, he would name a receiver to operate them.

Goltra's counsel at once protested that the boats were in bad condition, and the Judge ordered that a report on the condition of the boats be made today. Accordingly, a hearing was held this morning.

At this hearing Attorney Joseph T. Davis, representing Goltra, said that it would take two weeks to determine, by examination of the boats, what repairs were necessary before they could be used.

Davis said the tugboat Illinois had been kept in better repair than the others, and that equipment had been taken from the Minnesota and Missouri to replace broken parts on the Illinois. He said it would take 10 days or two weeks to get the Illinois ready for operation, 30 days to equip the Iowa, and six to eight months for the Minnesota and the Missouri, which he said had been "gutted."

Counsel for the Government declined to admit the correctness of these statements, and Judge Farris ordered that the crews in charge of the boats be questioned. The men who most recently operated the boats were brought in, and their testimony conflicted, some saying that the equipment was in good condition now, and others disputing this.

The Court then asked Maj. John C. Gotwals, in charge of the Army Engineer Corps here, to make an "unbiased" investigation, and Maj. Gotwals said he would do so and would be ready to report Tuesday.

Traffic Question Raised.
Attorney Davis, at today's hearing, also raised the question as to traffic available for the fleet, saying there was little freight business, except iron ore transportation, on the upper Mississippi, and saying also that Goltra was not authorized.

ALDERMEN TO
TAKE UP THE BUS
PERMIT PROBLEM

Thorough Investigation to
Determine Legal Status
of the Situation Likely to
Be Undertaken.

COMPENSATION TO
CITY ANOTHER PHASE

Advice of City Engineer Ignored by Board of Public
Service in Favoring
People's Company.

The Board of Aldermen, which convenes Sept. 26, most likely will take action on the motorbus-street railway situation, created by the granting of additional permits for new routes over 43 miles of streets to the People's Motorbus Co. by the Board of Public Service.

Aldermen now in the city believe the permits amount to a franchise of indefinite tenure, and feel a thorough investigation should be made to determine the legal status of the situation and ascertain if the city is being amply compensated for the valuable privileges accruing to the motorbus company from the permits.

Authority under which the Board of Public Service has been granting motorbus permits comes from an ordinance passed by the Board of Aldermen in 1920, and some Aldermen believe this ordinance should be repealed or amended so as to vest full control of all transportation permits in the Board of Aldermen.

Legal Status Under Inquiry.
Counsel for United Railways are working on the legal status of the situation, and have expressed the view that the Board of Aldermen had no legal right to vest this authority in the Board of Public Service.

Walter J. G. Neun, president of the Board of Aldermen, who has just returned from his vacation, said some of the Aldermen had been contemplating amending the ordinance and that certain members want a thorough investigation, particularly concerning the amount of taxes being paid the city under the permits by the People's Motorbus Co.

John H. Brod Jr., Alderman from the Twenty-eighth Ward, believes the Board of Aldermen should make inquiry whether the permits are to the best interests of the city and as to what would be the best interests of the city and as to what would be the best system—a motorbus system subsidiary to the United Railways with universal transfer privileges, or one separately owned with no transfers to and from street cars.

He believes there is some justification for the stated position of the United Railways that the best system would be one that would not impair the earnings of the railroads company.

Longest Another Phase.
Aldermen who are chairman of the Traffic Council, said the traffic congestion phase of the situation is also one that demands attention, and that there is a question whether additional buses should be permitted to operate on Washington avenue downtown, where parking privileges to private owners have been curtailed.

Clinton E. Udel, Alderman from the Twenty-third Ward, believes the Board of Public Service would have done better to grant the bus permits to the St. Louis Bus Co., in view of the fact that the United Railways pays the city 12 per cent of its gross revenue, in various forms of taxation, for the right to operate, as compared to 3 per cent for the People's company. He also believes there should be an inquiry concerning the authority of the Board of Aldermen to delegate power to the Board of Public Service to issue bus permits.

It is the opinion of City Counselor Semi that the Board of Aldermen has the power to revoke the authority granted to the Board of Public Service to issue bus permits, and that the Board of Aldermen cannot delegate a power that it does not itself retain.

Mayor's Attitude in Matter.
Mayor Kiel said he has heard of no movement among Aldermen to revoke the authority of the Board of Public Service in this connection. He pointed to "a public clamor for buses that could not be ignored," and said the United Railways did not go before the Board of Public Service with authority from the Federal Court to issue transfers to and from buses, and made only indefinite promises.

The Mayor said the additional permits were granted by Director

Extra Day of Year Would Be Called
"New Year's Eve"—Plan to Be
Discussed at Conference.

Special to the Post-Dispatch.
NEW YORK, Sept. 5.—A plan to change the year from 12 to 13 months, of 28 days each, with the extra day as a New Year's eve, is to be taken up at the meeting of the International Geodetic and Geophysical Union, which meets shortly in Madrid, according to Dr. Henry J. Cox, senior meteorologist for the United States Weather Bureau at Chicago.

The question, said Cox, will be taken up at the astronomical division of the conference. The months as planned will be of four weeks each. The first of the month will always be on Sunday, and Saturday will always fall on the 7th, 14th, 21st and 28th. The extra day which comes each year will be regarded as a floating day and instead of calling it a day it will be called "New Year's eve."

An advocate of this change in the calendar is Charles F. Marvin, head of the United States Weather Bureau in Washington.

"The change in the calendar has the tentative approval of the Catholic and Episcopal churches," said Dr. Cox, who added the change will not in any way interfere with church calendars, but make for a permanent Easter, whereas now that feast is shifting. The present calendar is based on the Gregorian method of dividing time, and the Greek church did not accept it as a basis until last year.

BALL TEAM AT WHITE HOUSE

President Congratulates Griffith's
Men on Leading League.

By the Associated Press.
WASHINGTON, Sept. 5.—President Coolidge today personally congratulated the Washington baseball team on its rise to the top of the American League, and wished it good luck in its road trip, starting Sunday.

At the invitation of the President, members of the team and Clark Griffith, the owner, went to the White House and were received by Mr. Coolidge. He greeted each one. While posing with the team for photographs, the President got hold of a baseball and asked Walter Johnson, who stood next to him, just how he pitched that famous curve. The twirler obligingly showed him.

AMUNDSEN BANKRUPT
BY EXPENSES OF HIS
POLAR EXPEDITION

(Copyright, 1924.)
CHRISTIANIA, Sept. 5.—ANKRUPTCY proceedings were granted today to Roald Amundsen, the explorer, his financial affairs being in a state of total chaos as a result of last year's failure of the polar expedition. Outlays this summer in connection with airplanes resulted in the final crash.

'GOLD SCREEN' GLASSES SAID
TO ELIMINATE LIGHT GLARE

Johns Hopkins Professor Invents
Eye Protection Also From
Heat.

By the Associated Press.
BALTIMORE, Sept. 5.—Gold-colored glasses—yellow glass upon which is a coating of gold—which, it is claimed, eliminate heat and glare from light and yet permit sufficient illumination for sight, have been invented by Dr. A. H. Pfund, associate professor of physics at Johns Hopkins University. Used in goggles for men who work in the glare of furnaces, the device, termed by the inventor "gold screen," will eliminate danger of blindness, it is said, and used in the moving picture industry it is regarded as a protection against fire.

Dr. Pfund's report on his innovation, just released, says the injurious infra-red and ultra-violet rays of light are eliminated entirely by the "gold screen," only visible radiations of moderate intensity reaching the eye.

This has been accomplished through the use of a film of gold, much thinner and more uniform in thickness than gold leaf, which is distilled upon the glass in a high vacuum. The gold, according to the report, passes the light waves on to the eye, but cuts off the heat waves, while the glass reflects the ultra-violet rays. The light that passes through the glasses is slightly but not unpleasantly greenish, it is said.

SULTANA DIAMOND BOUGHT
BY AMERICAN SYNDICATE

Gem, Weighing 183.064 Carats, Is
Said to Be Fourth Largest in
the World.

By the Associated Press.
NEW YORK, Sept. 5.—The Sultana diamond, weighing 183.064 carats and said to be the fourth largest in the world, has been purchased for an American syndicate, Joseph C. Stahlin of Brooklyn announced today on his arrival on the new French steamship De Grasse, which made port on her maiden trip.

Stahlin, refusing to name the syndicate for which he purchased the gem or to make known the purchase price, said the diamond would be shipped here under bond from Europe within a fortnight or so.

The stone was purchased from Mulai Hafid, former Sultan of Morocco. He said that after the purchase was consummated at the former Sultan's home, far in the interior of Morocco, gem experts of Tangiers had appraised the stone at twice the sum he paid for it.

Little is known of the diamond's history apparently, although Mulai Hafid put it on the market about four years ago.

Rivera Goes to Morocco.
By the Associated Press.
MADRID, Sept. 5.—Premier Primo Rivera will depart tonight for Tetuan, Morocco, accompanied by four Generals of the military directorate, in order to study the military problem resulting from the recent strong resistance on the part of the Moroccans.

WADE JOINS
SMITH AND
NELSON FOR
HOME JUMP

Globe Circled Sighted in
Triangular Formation,
Flying at Low Altitude
Over Water.

WEATHER IS FAIR
ALL ALONG ROUTE

Brisk Wind Clears Light
Morning Fog and Patrol
Ships Report Good Vi-
sibility.

By the Associated Press.
EASTPORT, Me., Sept. 5.—The world circling American flyer reached the United States at 1:21 p. m. (Eastern standard time) today. The three planes, flying very fast, passed over the West Quoddy head coast guard station on the boundary line between Maine and New Brunswick at that hour. The wind was slight from the south-east and there was a slight fog. The planes passed St. John, N. B., shortly before 1 p. m.

By the Associated Press.
PICTOU, Nova Scotia, Sept. 5.—The American round-the-world flyer set out from Pictou for Boston today at 10:35 on the last lap over foreign territory and the final jump overseas of their long and arduous globe-encircling trip.

The three planes got under way after a 15-minute delay, caused by motor trouble which developed on the heavily laden plane "Boston II." This machine, which had been sent to Pictou to permit Lieut. Leigh Wade and H. H. Ogden to complete their world flight, interrupted by the wreck of their first plane off the Falkland Islands, was forced down three minutes after taking the air, with the machine of Flight Commander Lieutenant Lowell H. Smith and Lieut. Eric H. Nelson at 10:16.

It took only a few minutes to repair the motor trouble on the "Boston II," and the three machines were away at 10:35 on their 540-mile nonstop flight to Boston.

The "New Orleans," Lieut. Nelson's machine, was the first to take the air. It was followed by the "Chicago," with Lieut. Smith on board, while the "Boston II," carrying a greater load than the other two, hopped from the water at 10:16.

Wade Forced Down.
After flying about the harbor the three machines headed into the wind on a northwesterly course, but as they moved into formation to begin their long flight, Lieut. Wade's plane faltered, turned and swooped down to the water.

After circling about for a few minutes, the "New Orleans" followed the "Boston II" to the surface, the "Chicago" remaining in the air. A few minutes later Lieut. Nelson's plane was away again and Lieut. Wade's machine taxied down the harbor and joined the other two, all three turning again toward the northwest.

Before the decision was made to start on the flight this morning, it was anticipated that Lieut. Wade might have difficulty in getting off because of the extra weight of the machine in which he was flying. Lieut. Wade and Ogden experienced trouble from the first because they had just installed a propeller and tried it out for the first time this morning.

Just before the crew of the "Boston II" succeeded in getting the new propeller to turn over they were visited by Lieut. Smith and Nelson whose machines already were in position. As he was stepping from the navy tender to the pontoons of the "Boston II" Lieut. Nelson fell into water up to his waist.

Fair Flying Weather.
Lieut. Wade's first start was made after a two-mileup straight down the harbor, after he had made two unsuccessful attempts to get into the air.

The flyers' course leads across the harbor and out into the Atlantic. The planes were seen at 1:21 p. m. at the mouth of the harbor.

Continued on Page 2, Column 4.

ATLAS CEMENT CASE AWAITS U. S. SUPREME COURT RULING

If Company Loses There It Will Plead Guilty in Missouri

JEFFERSON CITY, Sept. 5.—A tentative agreement for settlement of the Atlas Cement case against the Atlas Portland Cement Co. of Pennsylvania was reached in a conference here yesterday between Thurlow M. Gordon of New York, general counsel for the company, and Attorney-General Harrett, and the decision is now pending in the United States Supreme Court. The Atlas company operates a large plant at Hannibal, Mo.

The probable course will be the filing of a stipulation in the State Supreme Court providing that the Atlas Co. lose the case now pending in the United States Supreme Court. If the Atlas wins the case, the Missouri Supreme Court will enter a judgment in favor of the Atlas company. The Missouri Supreme Court will enter a judgment in favor of the Atlas company. The Missouri Supreme Court will enter a judgment in favor of the Atlas company.

SOVIET SUSPECTS POWERS WOULD DIVIDE CHINESE ZONES

Official, Pointing to Hughes' Visit to Europe, Believes U. S. Has "Dropped" Open Door

MOSCOW, Sept. 5.—Soviet Russia has a serious view of China's affairs and is not going to remain indifferent, says M. Rothstein, member of the presiding committee of the Foreign Office, in an official statement to the foreign correspondents.

"We have ground to suspect that some arrangement was arrived at between the great powers as regards China, during Secretary Hughes' stay in London," the statement asserts.

"We believe that the United States abandoned its policy of open door and decided to divide zones of interest in China. It seems that England receives the north, France the province of Unnan and Japan Manchuria.

"Whatever scheme the powers have arrived at," he added, "Soviet Russia is going to raise protests, as, being a neighbor to China, it affects Russia closely and fills her with great anxiety."

"We believe that the United States abandoned its policy of open door and decided to divide zones of interest in China. It seems that England receives the north, France the province of Unnan and Japan Manchuria.

PLANES IN WORLD FLIGHT NEED REPAIRS

Some Wings and Bodies Have Carried Aviators Over Mountains, Seas and Deserts.

NURSED BY FLYERS WITH UTMOST CARE

Lieut. Smith and Nelson No Longer Take Unnecessary Chances—Say Ships Will Make Trip.

BY C. B. ALLEN.

A staff correspondent of the Post-Dispatch and New York World.

PICTOU, N. S., Sept. 5.—If the American world flyers are allowed to follow their own judgment the globe-circling mission of the United States air service will end where it began, at Clover Field, Santa Monica, Cal., and not be extended to Seattle. There are good reasons for this.

Chief among them is the fact that the Chicago and New Orleans survivors of the gruelling circumterrestrial race, are very tired airplanes. Despite the unceasing care of their pilots and mechanics the long grind over wearying jungles and burning deserts, through polar chill and buffeting waves has told on them. They have flown a good flight, they have kept the faith and they will finish the course, barring unforeseen disaster, but it is the best opinion of the men who have brought them home to America that it will be unwise to tax them beyond the original limits of the flight.

"We are flying with the same wings, the same bodies, the same everything, except motors and pumps we had when we left Clover Field," Lieut. John Harding Jr., mechanic for Lieut. Eric Nelson, the New Orleans said yesterday. "They have gone through it all." His pilot took up the tale in the delightful Swedish twang that characterizes his speech.

Both Ships Need Repairs.

"Both ships ought to be wheeled on the factory for a thorough overhauling—the kind that can only be given there—as soon as we get back to California," he said. "When Smith took off from Ice Tickle and from Hawkes you would hear his ship growling and squeaking above the roar of the motors.

"Our old bus is no better. Both of us have kept everything tight that could be kept, but the bus has been in the air until you can see it move. It wiggles like a snake, the ripples running back from nose to tail. The wings move, and the struts give in the middle. She has ridden so many curvies and waves with their compasses and counter-compasses and so many winds she's in a way to be worn out."

All of the men believe the planes are capable of finishing the flight at the same time as the globe is only one more hop before they will be back on wheels and a little easier going. They are quickly taking no unnecessary chances and the hectic days of racing on and on to the limit of endurance of men and machines for the sake of catching up with schedule are gone.

Plans Should Be Nursed.

"A day or a week doesn't matter much now," they say. "We are close home to muf things if we can help it."

Lieut. Lowell H. Smith, flight commander and pilot of the Chicago, will say little about the proposed extension of the flight to Seattle. It is obvious that he favors it no more than the other men but he is cautious and ill-tempered to "If the Chief says Seattle, Seattle's where we'll finish."

The airman apparently think the Seattle flight is being pressed by nervous persons anxious to cut the globe to the air in a few days as possible on the limit of endurance of men and machines for the sake of catching up with schedule are gone.

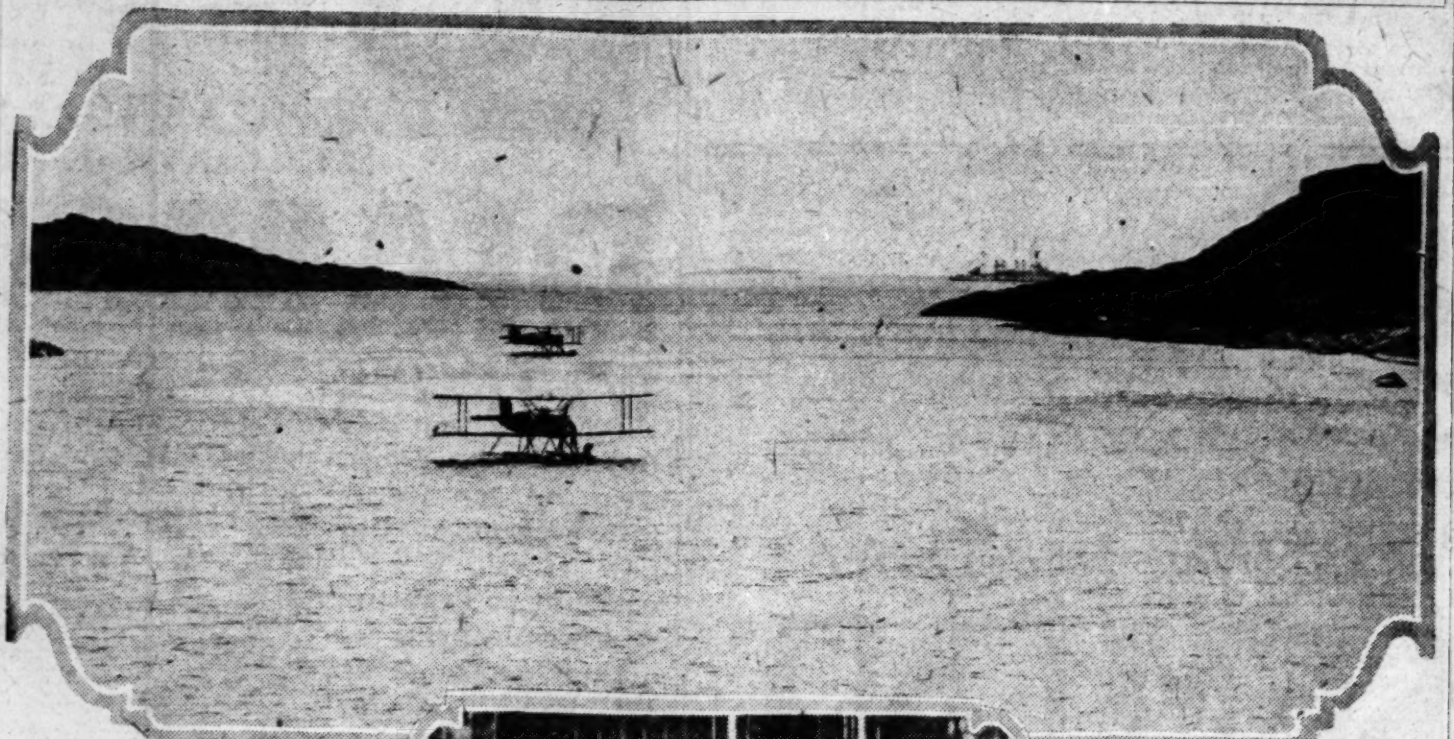

The lowest passage through mountains would also be in the scheme.

New Propeller Arrives.

Wind and rain persisted all day yesterday in Pictou and the flyers and their rooms at the Hotel Pictou. Lieut. Smith received telephonic warning of a hurricane approaching from the Atlantic and the flyers put out to make sure the propellers of their planes were in good shape.

He said this was merely a precaution. A motor sailboat from the harbor was blown by the gale and the propeller requested by Lieut.

"Magellans of the Air" Arriving Back on American Continent

Lieut. Wade for the Boston II was brought into port by the destroyers Cushman, which put out again to get a pontoon spreader bar for the Chicago from the supply ship Brazos. No effort was made to put on the new slick on account of the rough weather. An interesting sidelight in this connection is that the propeller for the Boston II is of the same type used on the NC boats on their historic flight over the Atlantic. Similar sticks are on the Chicago and the New Orleans. They have a greater pitch and consequently pull a ship off the water quicker than the propeller now on Wade's ship.

Locatelli's Arrival in New York Nearly Caused Riot

NEW YORK, Sept. 5.—Lieut. Antonio Locatelli, Italian aviator, whose plane was wrecked off Greenland recently, was met by police reserves at the Grand Central Station last night to prevent a threatened riot between rival factions in the crowd of 3000 Italians assembled to meet him.

Disension arose in the crowd, according to the police, when Locatelli appeared. Cries of "Hurrah for Locatelli" were answered by shouts of "Down with Locatelli and the Fascists."

Fearing an outbreak, the police ordered the official welcome dispensed with and escorted the flyers through a side street to a hotel. Before they made their escape some of the alleged anti-Fascist sympathizers broke through the police lines.

U. S. WORLD FLYERS LEAVE PICTOU FOR JUMP TO BOSTON

Continued from Page One.

Northumberland straight to the isthmus of Chignecto, which connects Nova Scotia and New Brunswick. From this point they will follow the coast lines of New Brunswick and Maine, southwest to their destination. Weather reports from various points along the coast indicated that flying conditions were fair.

At 10:50 the machines passed River John and at 11:16 they passed over the mouth of Pugwash Harbor, about 50 miles from their starting point. They were flying abreast and going very fast.

Watchers on the shore off Wallace Harbor, which the airman passed before reaching Pugwash Harbor, asserted that the "Boston II" dropped very low, followed by the "Chicago," while the "New Orleans" slackened its pace and hovered overhead. For a time it looked as though the "Boston II" had alighted, but a few minutes later she gained altitude again and the three machines disappeared from view.

PATRICK TO LEAD AIR SQUADRON TO WELCOME FLYERS

By the Associated Press.

BOSTON, Sept. 5.—Maj. A. Stuart MacLaren, the British aviator who attempted a flight around the world, arrived at the Boston airport today to welcome the world flyers.

He said that the "fine sportsman-ship" of the American flyers during their contact with his party in Asia had prompted him to make a special trip to Boston to be present at the virtual completion of their journey.

By agreement, trial was set for Sept. 22. Pearson's bond was set at \$12,500, and his wife's at \$5,000. The bonds were furnished by relatives. Pearson is charged with assault with intent to kill and his wife is charged with being an accessory before the fact.

SEVEN BANKERS ARE INDICTED

South Dakota Grand Jury Censures State Banking Department.

SIoux FALLS, S. D., Sept. 5.—Vigorous censuring the State Banking Department for alleged lax methods, a special grand jury yesterday returned indictments against seven bankers in connection with failures of their institutions, making a total of 13 indicted since the special grand jury convened in June.

The grand jury in censuring the Banking Department in a report accompanying the indictments, declared that the department "took no action to prevent numerous violations of the law or to close the banks if violations continued."

The upper photograph shows the army flyers just as they settled in Ice Tickle Inlet at Indian Harbor, Labrador, on the last leg of their return to their homeland. Eric Nelson commanding the other planes.

ALDERMEN TO TAKE UP THE BUS PERMIT PROBLEM

Continued from Page One.

of Public Safety McKelvey, Director of Streets and Sewers Fisk and Director of Public Welfare Cunniff, members of the Board of Public Service, who reached their decision at special meetings held last Sunday and the following day, Labor day. President Kinsey of the Board of Public Service, who had attended previous meetings, which the additional bus permits were discussed and who had asked that action be deferred until the return to the city, was absent from the meetings held on the two holidays, according to Mayor Kiel. Director of Public Utilities Hooke, the fifth member of the Board of Public Service, also was absent. It is said the city would have opposed granting the permits to the Peoples' company.

The Board of Aldermen has sole power in passing on franchises of all kinds, which includes the franchise under which the United Railways operates. The Peoples' Motorbus Co. has not been classified as a public utility, and this is another question that Aldermen believe should be properly answered by the board when it meets the latter part of this month.

Advice of Engineer Ignored.

It was learned today that the Board of Public Service, when it granted permits last Tuesday to the Peoples' company for routes over 42 miles of additional streets, acted against the advice of C. E. Smith, consulting engineer of the city, who addressed a written report Monday to Director of Streets and Sewers Fisk, advocating that the permits be granted to the St. Louis Bus Co., subsidiary of the United Railways.

Smith advised against granting the permits to the Peoples' company on the ground that such action would "actually impose an increased street car fare upon the street car passengers who constitute more than 90 per cent of the riding public."

Although copies of the report also were sent to Mayor Kiel and other members of the board, it was not given out with the statement announcing that the permits had been granted to the Peoples' company, and the Post-Dispatch obtained the report from other sources.

"It is clear to all students of transportation," Smith advised in his report, "that a street car system, as a bus system cannot survive without an increased cost of transportation when operated separately in a city the size of St. Louis."

In speaking of the opposition of the United Railways to the extension of the Peoples' bus service, the board in the statement Tuesday said, "St. Louis is large enough and prosperous enough to support an adequate street car system and a non-competitive bus system."

YOUTHFUL PARENTS ARRAIGNED

Give \$25,000 Bonds on Charge of Attempting to Kill Child.

KANSAS CITY, Mo., Sept. 5.—Mr. and Mrs. Loren Pearson, 19-year-old parents, who were arrested two weeks ago, following Pearson's confession to the police that he had attempted to bury their baby son in a pasture east of the city, were arraigned here today following an indictment returned yesterday by the county grand jury.

By agreement, trial was set for Sept. 22. Pearson's bond was set at \$12,500, and his wife's at \$5,000. The bonds were furnished by relatives. Pearson is charged with assault with intent to kill and his wife is charged with being an accessory before the fact.

MISSING REPORT IN CASE AGAINST OFFICER FOUND

Capt. Hibben Discovers It While Going Over Papers Introduced in Army Inquiry.

By the Associated Press.

NEW YORK, Sept. 5.—A report long since reported to have been missing from the War Department files, in which William J. Burns, formerly of the Department of Justice, accused Capt. Payton Hibben of "revolutionary" utterances and activities, turned up yesterday at the meeting of the Army Board of Inquiry investigating Capt. Hibben's fitness to continue as a member of the Officers' Reserve Corps.

The document, which Capt. Hibben said he had vainly sought in the War Department files that he might prepare a defense against its charges, was discovered by the accused officer when he took the meeting to give him an opportunity to study the charges. The case was continued to next Monday.

The hearing also brought forth the announcement that Capt. Hibben's case would be carried to higher authorities, possibly President Coolidge. If the Inquiry Board found against him.

Of the Burns report, Capt. Hibben, after denying many of the allegations and criticizing some of its interpretations of his utterances and actions, declared: "If Mr. Burns doesn't understand English, it is not my fault."

He characterized as a misinterpretation a passage of his report crediting him with seditious utterances with regard to soviet "Russia."

"What I did say," he testified, "was, 'My belief is that under present conditions the Russian people are working out a Government which will be a democratic one and result in the betterment of the welfare of the people.'"

Saloon Raid Yields Moonshine.

Detectives raided the saloon of James S. Shields, 574 Thekla avenue, yesterday and seized in a raid, shed, two gallons of moonshine whisky, 59 cases of home-brewed beer, 40 gallons of malt and 29 gallons of mash. Shields was arrested.

BURGULAR, ENTERING DRUG STORE, SHOT

Police Follow Trail of Blood Futilely After Attempted Sarah Street Robbery.

A burglar was shot by Frank Volkmar, a druggist, of 1916 North Sarah street, while trying to gain entrance to Volkmar's drug store at 11:45 o'clock last night. The shooting followed less than 24 hours after a robber was shot and killed, with his own revolver, attempting to hold up George Dean, night manager of a gasoline filling station, at Liffell boulevard and Vandeventer avenue.

Although the burglar, escaped, evidence indicated that he had been hit by two of the four bullets fired by the druggist, and the police are canvassing physicians in the vicinity, and are watching hospitals, in an effort to find the wounded man.

Volkmar, who lives in quarters in the rear of the store, was awakened by noises in a small room, between his bedroom and the street. He got his revolver and listened, when the door to his room opened, fired four shots at the source of the sound. When he heard no further movements he called the police.

On the floor of the back room, the police found blood stains leading to a window from which the screen had been cut, and blood marks on the window sill, over which, apparently, the intruder had dragged himself out. The trail, which the police followed with flashlights, led two blocks north, to a shed in the rear of 4040 North Market street, where evidence indicated the fugitive had bandaged his wounds. There the trail ended. Volkmar and the police later found two bullets which had lodged in the wall of the room, and it was believed the two others hit the burglar.

M'KELVEY TO RESIGN PUBLIC OFFICE SOON

Announces Plan to Enter Contracting Business With His Son.

U. N. McKelvey, Director of Public Safety and Building Commissioner of St. Louis, will resign these offices in about 60 days to enter the contracting business with his son, James G. McKelvey, who is secretary-treasurer of the McKelvey Construction Co.

"We will have big work all over the country," said Director McKelvey, "and my only reason for giving up public office is that there is considerably more money in the construction industry."

He added that his relations with Mayor Kiel and the administration had always been pleasant and that he is leaving the administration of his own accord.

McKelvey has been in public office since 1911, when he was appointed Building Commissioner by Mayor Kreitzmann. He was reappointed by Mayor Kiel in 1915 and promoted to Director of Public Safety in 1917, but continued to hold the office of Building Commissioner. He was defeated for the Republican nomination for Sheriff in the primary election, Aug. 5, by Anton Schuler, City Marshal.

Mayor Kiel said he probably would appoint two men now in the Department of Public Safety, to succeed McKelvey, one as Director of Public Safety and the other as Building Commissioner.

St. Louis for a single fare at the lowest cost. Manifestly this will be impossible if the city continues to encourage a separate competitive transportation agency."

Smith gave as "reason for granting the permits to the St. Louis Bus Co. instead of to the Peoples' company, the fact that profits from bus operation then could be directed back to the railways company to offset any losses resulting from bus operation, which would hold down the street car fare.

"Magellans of the Air" Arriving Back on American Continent

Lieut. Wade for the Boston II was brought into port by the destroyers Cushman, which put out again to get a pontoon spreader bar for the Chicago from the supply ship Brazos. No effort was made to put on the new slick on account of the rough weather. An interesting sidelight in this connection is that the propeller for the Boston II is of the same type used on the NC boats on their historic flight over the Atlantic. Similar sticks are on the Chicago and the New Orleans. They have a greater pitch and consequently pull a ship off the water quicker than the propeller now on Wade's ship.

Locatelli's Arrival in New York Nearly Caused Riot

NEW YORK, Sept. 5.—Lieut. Antonio Locatelli, Italian aviator, whose plane was wrecked off Greenland recently, was met by police reserves at the Grand Central Station last night to prevent a threatened riot between rival factions in the crowd of 3000 Italians assembled to meet him.

Disension arose in the crowd, according to the police, when Locatelli appeared. Cries of "Hurrah for Locatelli" were answered by shouts of "Down with Locatelli and the Fascists."

Fearing an outbreak, the police ordered the official welcome dispensed with and escorted the flyers through a side street to a hotel. Before they made their escape some of the alleged anti-Fascist sympathizers broke through the police lines.

U. S. WORLD FLYERS LEAVE PICTOU FOR JUMP TO BOSTON

Continued from Page One.

Northumberland straight to the isthmus of Chignecto, which connects Nova Scotia and New Brunswick. From this point they will follow the coast lines of New Brunswick and Maine, southwest to their destination. Weather reports from various points along the coast indicated that flying conditions were fair.

At 10:50 the machines passed River John and at 11:16 they passed over the mouth of Pugwash Harbor, about 50 miles from their starting point. They were flying abreast and going very fast.

Watchers on the shore off Wallace Harbor, which the airman passed before reaching Pugwash Harbor, asserted that the "Boston II" dropped very low, followed by the "Chicago," while the "New Orleans" slackened its pace and hovered overhead. For a time it looked as though the "Boston II" had alighted, but a few minutes later she gained altitude again and the three machines disappeared from view.

PATRICK TO LEAD AIR SQUADRON TO WELCOME FLYERS

By the Associated Press.

BOSTON, Sept. 5.—Maj. A. Stuart MacLaren, the British aviator who attempted a flight around the world, arrived at the Boston airport today to welcome the world flyers.

He said that the "fine sportsman-ship" of the American flyers during their contact with his party in Asia had prompted him to make a special trip to Boston to be present at the virtual completion of their journey.

By agreement, trial was set for Sept. 22. Pearson's bond was set at \$12,500, and his wife's at \$5,000. The bonds were furnished by relatives. Pearson is charged with assault with intent to kill and his wife is charged with being an accessory before the fact.

The Peoples' Motorbus Co. has not been classified as a public utility, and this is another question that Aldermen believe should be properly answered by the board when it meets the latter part of this month.

Advice of Engineer Ignored.

It was learned today that the Board of Public Service, when it granted permits last Tuesday to the Peoples' company for routes over 42 miles of additional streets, acted against the advice of C. E. Smith, consulting engineer of the city, who addressed a written report Monday to Director of Streets and Sewers Fisk, advocating that the permits be granted to the St.

**RIO GRANDE TO BE SOLD
AT AUCTION IN 60 DAYS**

Plan Approved by I. C. C. Provides
for Missouri Pacific and West-
ern Pacific Control.

DENVER, Colo., Sept. 5.—The
Denver and Rio Grande Western
Railroad will be sold at auction in intervention filed in be-

within the next 60 days, according
to a tentative agreement reached
here last night by Federal Judge
Symes, attorneys, and bondholders.
Judge Symes announced follow-
ing the conference that during the
week of Sept. 15 he would set the
auction price for the road.

A barrier in the way of the re-
organization was removed when pe-

half of Harold Palmer and H. L.
Finkelshtein of New York, and Hor-
ace W. Bennett of Denver were
denied by Judge Symes.
The plan tentatively approved by
the Interstate Commerce Commission
provides that control of the
road shall pass to the Missouri Pa-
cific and the Western Pacific rail-
roads.

TRIES TO END LIFE WITH GAS

Mrs. Emma Whaley Found Uncon-
scious by Her Son.

When Charles Whaley, 11 years
old, came home from school yes-
terday he found the door locked
at his home, 4173 Newpor Court,
and appealed to neighbors. A po-

liceman was called who forced a
rear window and found the boy's
mother, Mrs. Emma Whaley, 43,
lying unconscious with her head
in the oven of a gas range, the
jets open.
She was taken to City Hospital
in serious condition. An unident-
ifiable note was found on the
kitchen table. Her husband, Louis,
is a machinist.

CANDY STORE FIGURES IN UNUSUAL TANGLE

Owner Disappeared Year Ago
—Brother, Who Sold It,
Asks Receiver.

A receivership suit, unusual in local records, involving a candy store deserted by its owner more than a year ago, and subsequently sold by the missing proprietor's brother, was filed in Judge Grimm's court yesterday.

The petitioner, Nick Atanasoff, who also asks for an accounting of profits from the date of sale, states

that, on April 12, 1922, his brother, Jim Atanasoff, disappeared from the city, leaving the store, at 5706 Easton avenue, in the hands of a clerk. When his brother failed to return, Nick states, he authorized the sale of the place to Frank Ganish, the clerk, for \$1500. Now, through his attorney, Joseph Cane, he alleges his own action in authorizing the sale was illegal, and asks for a receiver to take charge of the establishment for the benefit of Jim's wife and son, who are in Greece.

In the suit, Nick also enters a claim as creditor, alleging his brother owed him \$1500 at the time he dropped from sight, and he further asks the court to dispose of \$4000, which Jim left on deposit in the Union Station Trust Co. So far, he alleges, he has received nothing from the proceeds of the sale of the store.

Jim Atanasoff disappeared a few days after he was questioned as a witness of the murder of a negro

woman, on the street in front of his store.

Judge Grimm, after expressing uncertainty as to whether he was empowered to act, took the matter under advisement.

Dog Helps Find Girl's Body.
By the Associated Press.
VICTORIA, B. C., Sept. 5.—An airdale terrier puppy and two kittens guarding the clothing of Barbara Eldridge, 14 years old, whose pets they had been, with the puppy whining its distress, gave the clue which led to the discovery of the girl's body in Glen Lake near here. The girl had been missing 24 hours.

Chief of Missouri Fire Chiefs.
By the Associated Press.
ST. JOSEPH, Mo., Sept. 5.—R. W. Price, chief of the Springfield, Mo., fire department, was elected president of the Missouri Association of fire chiefs at the annual convention yesterday. T. B. Sparks, chief of the Hannibal department, was elected vice president.

Investment Pays Large Dividends

"The money I have put into my home has brought me the greatest dividends of any investment I ever made," declared the business man.

"Small amount, too, when you divide the initial cost by the years of happiness a well-furnished home gives. I know the furniture will be good for a lifetime, because it came from the Prufrock-Litton Furniture Company, Fourth and St. Charles."

WINNER OF BEAUTY CONTEST TO BE SELECTED TODAY

83 Entrants in "Miss America" Pageant to Be Judged at Private Appearance.

Special to the Post-Dispatch.
ATLANTIC CITY, N. J., Sept. 5. This is a judgment day for the 83 inter-city winners entered here in the "Miss America" beauty contest. They have been reviewed in morning clothes, afternoon attire and evening dress, but today they appeared for the first time in their bathing suits—publicly and privately.

The private appearance will be before a group in "The Little Red Schoolhouse," where judges will choose 15 girls, three each from the five geographical divisions. From these 15 the final winners will be selected tomorrow in another private session.

The reason for a private judgment, as given by pageant officials, is that last year, when the beauties were selected in public, there was considerable disturbance, in which several women fainted.

The public appearance of the girls will take place this afternoon in a parade along the boardwalk. After three hours of deliberation last night among the judges, the contest for the most beautiful girl in evening dress was won by Miss Manhattan (Beatrice Roberts), 18 years old, a bobbed-hair brunette. Miss Santa Cruz (Tange Lamp-hier), 18, with blond bobbed hair, won second prize. Third award went to Miss Johnstown (Leona Van Alsty), 18, who has long brown curls.

TWO BROTHERS ADMIT SEVERAL DAYLIGHT BURGLARIES

Edward Surowsky, 18, and George, 23, Had Stolen Articles in Their Possession When Arrested.

Several daylight burglaries which occurred on the South Side during the past few weeks were explained yesterday when detectives arrested Edward Surowsky, 18 years old, and his brother, George, 23, at Gustine and Connecticut streets. They confessed, according to Capt. Chrismier, that they posed as vacuum cleaner salesmen and used a duplicate key to enter homes where no one answered the door-bell.

Jewelry and revolvers found on the brothers and at their home, 8300 Vulcan avenue, were identified by persons who had been robbed. When arrested, Edward had a loaded revolver in his pocket, and George was carrying three. Warrants were issued yesterday on complaints of Mrs. Robert V. Roth, 4068 Utah street; Mrs. Otto Weiss, 4243 Wyoming street, and Mrs. Elizabeth Schmidt, 3973 Humphrey street.

UNDERWOOD IN MAINE HITS KLAN

Assails Hooded Order in Speech in Behalf of Pattangall.

By the Associated Press.
ROCKLAND, Me., Sept. 5.—Senator Oscar W. Underwood of Ala-

bama, speaking here yesterday in the interest of William R. Pattangall, Democratic nominee for the governorship, assailed the Ku Klux Klan, declaring the issue involved one of the gravest that has ever confronted a free people.

"It walks on the streets with you, confronts you at your doorstep and threatens your very destiny and the future happiness of your families," he said. "The South and the West have felt its blight. Free government is at stake."

Milk and Butter Fat Queen.
By the Associated Press.
CHICAGO, Sept. 5.—The fourth consecutive year of more than 31,000 pounds of milk and 1000 pounds of butter fat makes Adiron-dack Wietske Dairy Maid the pro-

duction queen among 528,000 pure bred Holstein Friesian cattle in the United States, the Holstein Friesian Association of America announced today. She is the only cow in the world to produce more than 31,000 pounds of milk and 1000 pounds of butter fat in one lactation.

Will Increase Gasoline Mileage—Minimize Carbon—Make Your Motor Run Smoother, With Greater Power and Quicker Pick-Up

Rather than wait for the tremendous advantages of FORCE-O to become recognized by the motoring public through a long-drawn-out process, this sweeping free trial offer is announced. Instead of asking you to spend YOUR money to try FORCE-O, we are willing to GIVE you enough for a thorough test—a four-ounce can treats ten gallons of gasoline.

There are no restrictions in this free offer, other than that you sign your name and address, and give make and license number of your car in the coupon below. Take it to any dealer shown in the list at the left, and he will immediately add the FORCE-O to your gasoline. He will return your coupon and the empty FORCE-O can to us, as evidence that you have been supplied. Your dealer will be credited by us with the full wholesale price, to compensate him for acting for us in presenting you with your can of FORCE-O.

Will FORCE-O Increase Gasoline Mileage?

Yes! Tests have proved it. Many users say that the cost of FORCE-O, used over a period of time, is more than saved by the increased mileage obtained from gasoline. For instance, if you drive a Ford car, using the hand throttle, and your usual speed requires that the lever be pulled down to the sixth notch, you will find that with FORCE-O in your gasoline, the same speed will be attained with the gas lever pulled down to only the fourth or fifth notch, thereby cutting down the gasoline consumption. This same principle applies if you drive a larger car, operated with a foot throttle.

Will FORCE-O Cut Down Carbon Accumulation?

Yes! But remember this—there is nothing that will take the place of scraping a motor clean of carbon. We do not claim that FORCE-O, used in a motor clogged with carbon, will clean it as though it were scraped and scoured. It won't. Nothing will. If you don't believe it — INVES-TIGATE—ask any repair man.

But FORCE-O, when steadily used, will cut down carbon accumulation, because it gives better combustion of the gasoline, one of the causes of carbon formation. Also, when enough carbon to justify scraping does finally accumulate, your repair man will find it soft and easy to remove.

Does FORCE-O Make Starting Easier?

Yes! You have experienced trouble in starting your motor on a cold morning, or after the car has stood all night in a cold garage. This is because your gasoline must be turned to vapor before it will ignite—and heat is required to completely vaporize it. The action of FORCE-O is to make the gasoline vaporize more readily, so the spark will "take hold" quicker.

Does FORCE-O Give More Power—Smoother Running—Quicker Pick-Up?

Yes! The reason is that it makes the pistons in your motor "follow through." Instead of a quick, short explosion which is given when gasoline alone is used, the powerful impact is made longer, to give a swinging action, instead of a short, quick push. It is the difference be-

tween a long, powerful swing which sends the ball over the fence for a home run, and the short, quick push of the sacrifice hit. Or the difference between a Walter Hagen drive and the short chop of a dub golfer.

These long, swinging, follow-through strokes of your pistons naturally make for smooth running—quick get-away in congested traffic—for great driving wheel turning power on steep hills or long country drives.

Fill Out Coupon—Offer Good Only Until Sunday Night

You have read the story of FORCE-O. But you don't have to believe it. You can prove it to yourself AT OUR EXPENSE. Fill out the coupon—take it to any gasoline service station shown on the list and have your can of FORCE-O put into your gasoline. Watch for results. If you are not convinced, you have lost nothing. If you are, you will thank us for giving you this opportunity of finding the way to greater satisfaction from your car.

But remember—this offer expires Sunday night—don't delay. As a favor to your dealer, won't you fill out the coupon in advance, instead of obliging him to wait while you sign at his pump?

Our Misses' Style Shop—St. Louis' Most Favored and Authoritative Style Center—Is an Interesting Place These Days, Presenting Fascinating Assortments of

Misses' Apparel in the Smartest Fall Styles

—Every New Youthful Mode for Every Daytime and Evening Occasion—Widely Ranging Prices Being Featured

So long and successfully has our Misses' Style Shop catered to the requirements of fashionable misses and small women that many now appreciate the importance of coming directly here for distinctively youthful garments. Just now our assortments of Autumn apparel are at the height of completeness, offering a choice that will at once impress those who would choose most advantageously from every smart and approved style fancy. The following groups show that we present inexpensive and moderately priced garments as well as the ultra-elegant types.

Misses' Coats

—for Street and Dress Wear

\$25 to \$195

From newest sports models to the latest dressy creations our assortments are very comprehensive. The favored silhouettes include wrap and flared modes and the very chic "Ensemble," a combination of frock and coat. Elegant materials and luxurious fur trimmings are many. Sizes 14 to 20.

Cranberry, Lebanon, penny, Cossak, sepi, and cinnebar are a few of Autumn's new and attractive colors.

Misses' Frocks

—for All Occasions

\$16.75 to \$225

Frocks of tailored simplicity or for afternoon wear are faille, bengaline, crepe satin, Canton, charmeen, twills and other fabrics—many with novel embroidery, fur, braid or button trimming. Dinner and evening models feature dainty creations of chiffons, Georgette or beautiful metal cloth. Sizes 14 to 20.

Black and navy are very smart for daytime wear and there are many new shades; lighter colors for evening are preferred.

Misses' Suits

—Two and Three Piece Styles

\$25 to \$175

The most prominent modes include man-tailored models with short or extremely long coats—handsome three-piece models enriched with handsome furs—and the "Ensemble," which combines long coat with one-piece frock of silk or cloth. Silk and cloth weaves are many and there are sizes 14 to 20.

Jap mink, beaver, mole, Hudson seal, baby fox and natural squirrel are a few of the furs so profusely used. Fourth Floor

COOLIDGE ATTACKED ON POSTAL WAGE VETO

Denied Increase to Clerks, but Gave It to Political Officials, It Is Pointed Out.

Post-Dispatch Bureau, 20-23 Wyatt Bldg.

WASHINGTON, Sept. 5.—Additional evidence that the postal employees have not forgotten President Coolidge's veto of the postal employees' pay bill was made known when Thomas F. Flaherty, secretary-treasurer of the National Federation of Post Office Clerks, attacked the President's Labor day speech in a statement made public today.

Several weeks ago H. W. Strickland, industrial secretary of the Railway Mail Association, which is affiliated with the American Federation of Labor, declared that most of the postal employees were looking favorably toward Senator Robert M. La Follette, independent candidate for the presidency, because of Coolidge's refusal to grant increased pay to postal employees after the bill had overwhelmingly passed both houses of Congress.

"The President rejoices that wages in public industry have kept pace with living costs, yet he by his veto on June 7 of the postal pay bill, prevented 300,000 postal workers from receiving a pay increase that would have meant a more equitable adjustment of Government wage standards to increased living costs," Flaherty said in a statement sent out by his organization.

Living Costs 69 Per Cent Up. "The President said that living costs are now only 69 per cent above the level of 1913. Apply his figures to postal pay standards and the injustice of his veto is apparent. The major portions of the clerical and letter carrier forces were receiving an annual wage of \$1200 in 1913. They are now receiving \$1800 a year—or a money increase of 50 per cent.

"But, according to the President's own figure, living costs since 1913 have advanced 69 per cent. Consequently the real wages of these workers, measured in the purchasing value of the dollar, is lower today than in 1913.

"Congress and the public and the employees of the postal service saw the injustice of the situation and wanted it corrected. President Coolidge blocked the way with a veto in which he said 'Government extravagance must stop.'

"The President now approves a policy in private industry of adjusting wages to living costs that he condemned in his veto message when applied to the lower paid postal employees."

Increase for Officials. Flaherty pointed out that President Coolidge had signed a bill on April 4 granting salary increases of 50 per cent to the higher paid postal officials, political appointees for the most part, which are paid from postal revenues.

"The President's veto argument that postal revenues should first be increased before the postal workers can be granted a pay raise would come with better grace if he had voiced it when the bill increasing the pay of the higher postal officials was before him on April 4," said Flaherty.

"The four assistants of his Postmaster-General, all political appointees, were raised from \$1800 to \$2700. These increases are paid from postal revenues. Apparently the urgent necessity of stopping governmental extravagance or making the postal service self-sustaining did not occur to the President until Congress endeavored to raise the pay of the non-political workers in the postal service. Then came the sharp denial to these workers in the presidential veto of June 7."

PREDICTS BUSINESS TRIPS IN DIRIGIBLES WITHIN 10 YEARS

Lieutenant-Colonel Pageflow Tells Rotarians Method Is 'Simple, Safe and Luxurious.'

Lieutenant-Colonel Pageflow, commandant of Scott Field, speaking at a Rotary Club luncheon at Hotel Statler yesterday, on lighter-than-air travel, said it was simple, safe and luxurious, and prophesied that, within 10 years, most of his audience, if not all of them, would be making their business trips to New York and Chicago in dirigibles. After this prophecy, he paused, and then remarked that he saw doubt in some faces, and said probably most of them felt the same way about automobiles 10 or more years ago.

"Within 10 years, or perhaps before," said Col. Pageflow, "you will board an airship some evening, get into your berth, where you will sleep with far less disturbance, and likely more comfort, than you do in a sleeping car, and, when you wake up the next morning, you will have reached New York. Or if we can't get you there by that time, we'll have you there by 10 o'clock. If you have a little business in Chicago, you will get on board here some morning, get to Chicago and finish your business and be back here by 2 or 3 p. m."

Forced to Wed, She Alleges. Mrs. Althea Rose Baits O'Brien, 19 years old, yesterday filed suit to annul her marriage to Edward W. O'Brien, 42 1/2 Sacramento avenue, alleging that on Aug. 21 she was compelled by his threats to enter into the bonds of matrimony with him. The ceremony, she says, was performed without consent of her guardians.

ATTACKS FILLING STATION GROWTH

Attorney-General Barrett Attributes "Wasteful Competition" to Abnormal Prices.

Rapid growth in the number of gasoline filling stations in St. Louis and other Missouri cities is due to the abnormal price of gasoline, declared Attorney-General Barrett in a statement issued today in connection with his investigation into gasoline prices.

The gasoline trade, his statement said, desiring increased sales, and finding no outlet in competitive and lower prices, has asserted itself in "wasteful competition" as to service, with the result that filling stations have sprung up everywhere. In St. Louis, which is now without a zoning ordinance, the development has resulted in disfigurement, the statement says.

A check of records at the city hall disclosed there are between 600 and 700 gasoline and oil filling stations in St. Louis. Of these, 495 are in buildings devoted exclusively to the sale of gasoline and oil, while the others are operated in connection with garages, repair shops and service stations.

203 installed in year. During the year ended July 1, 263 permits were issued for the installation of underground tanks and pumps for filling stations. A few of these permits were secured for replacement purposes, but the others represent installations at new filling stations. During this year, with the St. Louis zoning ordinance declared invalid by the Supreme Court, many of these stations have been erected in residence districts, where they formerly would have been barred.

"One result of my investigations," Attorney-General Barrett said, "has been to show that, even in a city the size of Jefferson City, oil companies have spent as much as \$25,000 for a single station in a residence district, and there are at least three times as many stations as are needed for the local trade."

"Cities Being Disfigured." "All of our cities are being disfigured by this multiplication of these places. It is one of the evils which result from the fact that prices do not represent a truly competitive basis, but have been kept above normal in formal understanding and implied agreements."

Attorney-General Barrett is conducting an inquiry to determine whether the Standard Oil Co., of Indiana, and other oil companies, have violated the antitrust laws by price fixing. Another hearing is set for Sept. 19.

"Putting the industry on a normal and legal basis," the statement concludes, "will cure the

filling station evil as well as remove the other harmful results of present practices."

Workman Hurt in Fall. John Kreuter, a workman employed on the Bank of Edwardsville building at Edwardsville, fell from an upper floor to the side-

OKLAHOMA BANK ROBBER ELECTROCUTED

Last Words Are Denial That He Fired Shot That Killed Cashier.

By the Associated Press.

MALESTER, Ok., Sept. 5.—Richard Birkes was electrocuted in the State penitentiary here at 12:03 this morning for the murder of Frank Pitta, bank cashier, during an attempted holdup of a bank at Ketchum, Craig County, on Aug. 9, 1933. Birkes was pronounced dead five minutes after the current was applied.

Birkes met his fate bravely. He walked unsupported to the death chair, and chatted with attendants as they adjusted the straps.

His last words were: "I am not guilty and am not afraid to die. Turn her on, boys."

Birkes confessed his part in the holdup, but denied that he fired the fatal shot. Two other men, Raymond Thomas and Allison Ives, were convicted of participation in the murder, and are serving life sentences.

Several days ago one of them is alleged to have signed an affidavit stating that he, and not Birkes, fired the shot that killed Pitta. Birkes' wife and mother cited this in making an appeal to Gov. Trapp for clemency, but the executive said the evidence did not warrant his interfering in the case.

The bank holdup occurred during the lunch hour when all bank employees except Pitta were out. Unarmed, two of the robbers entered the bank, ordering Pitta to throw up his hands. He apparently did not comply quickly enough, and was shot, dying instantly. The men then abandoned their robbery plans, and rushed from the bank, jumping into an automobile held in readiness by the third member of the band. They sped out of town, but were captured two days later.

At the trial testimony was introduced tending to show that it was Birkes who had fired the fatal shot. On this he was sentenced to the electric chair.

Birkes was 36 years old, and formerly lived at Sloom Springs, Ark.

HOME TO REPAIR SQUARE IN FRONT OF ST. PETER'S

City Loses 50-Year-Old Argument With Vatican About Which Should Pay the Bill.

Dependence of the Associated Press.

ROME, Aug. 14.—The imposing but age-worn square in front of St. Peter's is at last to be newly paved and overhauled as part of the dressing-up process in anticipation of Holy Year, 1925, but only after more than 50 years of disagreement as to whether the expense should be borne by the Vatican or the municipality of Rome.

The city has finally made the necessary appropriations, and work already has been begun.

The square, one of the show places of Rome, has been in need of repair almost ever since the temporal power of the papacy was overthrown in 1870, but until now the city has refused to supply the funds because it was argued that since it formed an integral part of the cathedral and Vatican grounds, the expense should be borne by the church. The church authorities retorted that it was one of the city's most beautiful and picturesque public squares, since it was always open to the public, and, therefore, it was the city's business to keep it up.

Safely REDUCE

Prominent American Special-ists, Doctors and Former Health Commissioner Exclusively Recommends New French Discovery to FAT PEOPLE.

Without injuring your health or having any of 1 to 6 pounds a week with a small tablet, conveniently put up in a box called "SAN-GRINA."

"SAN-GRINA" has been intro-duced into America. It has met with such success that Doctors, Special-ists and Dr. J. J. Rudolph, former Health Commissioner, have thor-oughly investigated it, and now exclusively recom-mend it to all people who are over-weight and who are suffering from it.

It is not a medicine, it is a system. If you have tried everything else without success, if you suffer from indigestion, high blood pressure, tired nerves, and all the other troubles of obesity, take 2 small tablets be-fore each meal, and watch your weight go down and your health im-prove. Not only will "SAN-GRINA" do away with ugly rolls of fat, but almost at the minute you start taking it you will feel a wonderful change. Thousands of people all over the world have been benefited by "SAN-GRINA" and are sending in most gratifying testimonials. These cases vary in reducing from 5 pounds in a week to 100 pounds in a few months. "SAN-GRINA" is a remedy that "almost immediately" takes away the fat. "SAN-GRINA" they felt 100 pounds better.

How quickly that rash disappeared!

THOUSANDS of users have wondered at the quickness of the action of Resinol Ointment and Soap. The answer is that it is not a surface treatment, but one that reaches the depths of the pores and attacks the source of the disorder, starting the healing right.

The first touch relieves the itching, burning and soreness and a few days' persistent use rarely fails to clear away the trouble.

When the skin is once restored to its normal condition, the daily use of Resinol Soap is generally sufficient to keep it healthy. Ideal for the complexion—unsurpassed for the bath and shampoo. Ask your druggist what he knows about the Resinol products.

Piles, Fistula, Fissure, Ulcers, Etc.

Dr. C. Matthew Coe, St. Louis, Mo., Oct. 23, 1923.

My Dear Doctor and Friend:—

On Sept. 27, 1923, I went to you to be treated for a bad condition of Piles and Fistula. You treated me at your office, and cured me in about two weeks.

I did not lose any time from my work; a fireman, at Engine Company No. 11—2400 South Fourth street.

I am in perfect condition now. I gladly recommend you, and your treatment to any one who is troubled with rectal troubles.

Sept. 1st, 1924—My condition today is most satisfactory. It is now 10 months since you cured me as above stated. Use this letter to best advantage for others who may be suffering with piles.

**ROBBER-PROOF MAIL TRUCKS
TO BE USED IN LARGER CITIES**

Post Office Department to Install Armored Cars Where Federal Reserve Banks Are.

WASHINGTON, Sept. 5.—What are considered virtually robber-proof mail trucks, armored and otherwise designed to thwart the holdup man, probably will be put

into service by the Postoffice Department in each city where a Federal reserve bank is located.

Seven of these trucks, with bullet-proof cars and steel protected windshields already are in operation in two or three of the larger cities. Postmaster-General New

manned by a driver and two guards, are equipped with bullet-proof shutters, affording vantage points for a return fire in case of attack.

A sign, which automatically continues its blast until assistance arrives, is another feature of the new mail fortresses which are made further impregnable by steel doors and a tall gate which unlocks from the inside. The tests of the truck at Fort Meyer, Va., thoroughly demonstrated its effectiveness.

**JUDGE COMPLETES REVIEW
OF LOEB-LEOPOLD EVIDENCE**

He Announces Decision, to Be Made Sept. 10, Will Cover Only Two or Three Pages.

CHICAGO, Sept. 5.—Judge John R. Caverly, who will decide whether Nathan Leopold Jr. and Richard Loeb will go to the gallows or the penitentiary for the murder of 14-year-old Robert Franks, has finished a digest of the evidence and has only to write his opinion as to the punishment, he indicated today.

Judge Caverly, who visited the Criminal Courts Building yesterday to confer with Judge Jacob Hopkins, his successor as Chief Justice of the Criminal Court, said he would leave the city in a few days for an unnamed destination to write his opinion, which will cover only two or three typewritten pages. He said sentence would be pronounced Sept. 10, as originally announced.

It is reported that the defense, during the last few days, has been considering two surprise moves in case the Judge inflicts the supreme penalty. A plea that the boys have become insane since their pleas of guilty, and a plea, before or after sentence, to withdraw the pleas of guilty and change to not guilty, are reported to have been considered. Defense attorneys refused to confirm or deny the reports.

**'MOVIE' ACTORS TAKEN IN RAID
THREATEN TO SUE POLICEMEN**

Damage Actions, Alleging Malicious Arrest, Urged Against Hollywood Officers.

LOS ANGELES, Sept. 5.—Damage suits against Hollywood policemen were threatened today by members of the film colony, as a result of the second raid in three days on alleged "wild parties" in movie bungalows in the Laurel Canyon district.

Following the arrest, early yesterday, of 20 motion picture people at the home of Jack Sherrill, actor, 48 hours after the arrest of Lloyd Hamilton, screen comedian, in a similar raid, demands were made by those taken into custody for a thorough investigation.

Jules Le Baron, producer, one of those arrested, is the leader of the movement to file damage suits for malicious arrest and to urge the Police Commission to investigate the officers involved in the raids.

Jack Friedlander, city prosecutor of Los Angeles, practically admitted that the Hollywood police had blundered when he ordered the release of the prisoners and the return of \$50 bail to each.

"The officers used poor discretion," was his only comment.

**REFUSE TO PAY INCOME TAX
Mexican Employers and Employees Organize to Fight New Levy.**

Copyright 1934, by the Press and Pulitzer Publishing Co., The New York World and the Post-Dispatch.

VERA CRUZ, Sept. 5.—A telegram from Mexico City reports that a large number of industrial employers, as well as employees, have formed a society to resist any attempts to make them pay the Mexican Federal Government income tax on profits and salaries.

This new society notified the Government that the factories and firms it represents will be closed if the Government insists on collecting the income tax, declaring that owing to stamp tax and other innumerable taxes, they will be ruined if they are forced to pay any more. The Government has issued instructions to all stamp offices throughout the country to make the income tax law effective.

**Russia Doubles Army Pay.
By Radio to the Post-Dispatch and the Chicago Daily News. Copyright, 1934.**

BERLIN, Sept. 5.—Soviet Russia has just doubled its army pay, with promises of further increases in the near future. However, the Soviet Government has signified its willingness to participate in a conference for reduction of armaments, provided the conference is held outside of Switzerland. It refuses to send representatives into Switzerland until the Swiss Government indemnifies the daughter of M. Worsky, Russia's emissary at Lausanne, who was assassinated.

**ADVERTISEMENT
What Is Neuritis?**

Neuritis is an inflammation of the nerves that produces sharp, darting pain very similar to that of rheumatism. In fact, the disease is often mistaken for rheumatism and treated as such, with the result that the sufferer gets no lasting benefit.

Neuritis is usually brought on by colds, injuries, bruises, nervous exhaustion, malarial poisoning or infectious diseases. The pain may be confined to one spot or it may move from place to place. Sometimes it is accompanied by soreness in the muscles, numbness in the hands or feet, lame back, stiff joints, eye strain or severe headaches.

The only way to obtain permanent, lasting relief is to heal the affected nerves—get rid of the inflammation. Epsom Neuritis Tablets are compounded for that very purpose. Harmless, pleasant and effective. A trial package will convince you. Price \$1.00.

SEAPLANE IN TEST FLIGHT
GOES 197.6 MILES AN HOUR

Midget Air-Water Speeder, Former
Winner of Pulitzer Trophy, Now
Fitted With Pontoon.

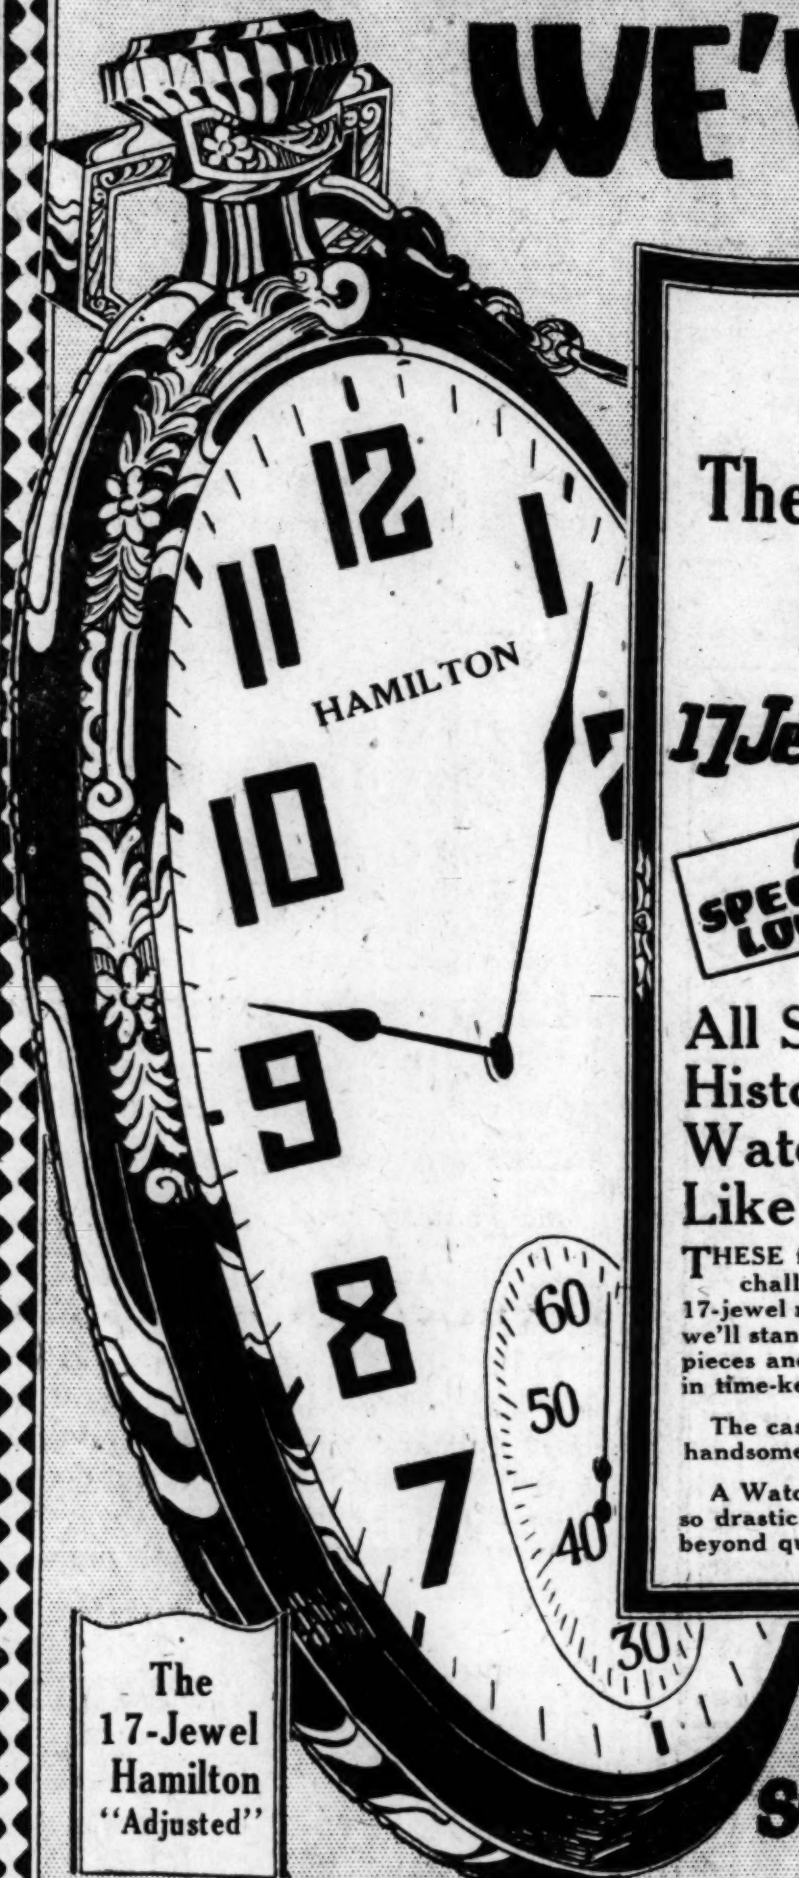

PHILADELPHIA, Sept. 5.
Striking through the air at 197.6
miles an hour, Lieut. George T.
Cuddihy, United States Navy, yes-
terday smashed the American sea-
plane speed record in tests above
the Delaware River. Lieut. Ralph
A. Ofstie of the navy, the day be-
fore had established 190 miles an
hour, as the peak of seaplane speed
in a flight over the Delaware
course.

The naval flyers are testing their
planes preliminary to defending at
Baltimore next month the Schu-
el-der International seaplane trophy
won by them last year. Daily in-
creased bursts of speed are record-
ed as finer adjustments are made
to the mighty engines which oc-
cupy the bulk of space aboard the
dramatic racing machines. The
mark the airmen seek to exceed is
a reported speed of 220 miles an
hour, said to have been registered
by a British seaplane that may
compete in this year's contest.

Lieut. Cuddihy, who hails from
Michigan, is attached to the air
fleet at San Diego, Cal. The plane
he is using is a 500-horsepower
CR-3, which won the Pulitzer
trophy in 1920 as a land plane. It
is now equipped with pontoon.
The upper plane of the winged
midget is of brass and forms a
radiator. In action, the machine
darts along the water, then with
a blast of sound from its exhaust,
fairly leaps into the air, and skims
down the river so fast the eye can
hardly follow it. It "banks" on
turns as quickly as a swallow in
flight.

10,000 Steel Box Cars Ordered.
The Pennsylvania Railroad Sys-
tem has placed an order in the
East for the purchase of 10,000
new all-steel box cars for delivery
at an early date, according to tele-
graphic advices received here by
Benjamin McKee, vice president
in charge of the Southwestern re-
gion.

Ordered to Sell Securities.

An order authorizing Charles G. Reville, receiver for the Interstate Casualty Co., to sell at private sale enough of the \$129,500 securities held by the Franklin Bank of St. Louis, to pay off \$55,268 owed the bank by the company on a loan,

was issued yesterday by Federal Judge Davis, on application of Conway Elder, attorney for the receiver. The remainder of the securities were ordered turned over to the receiver after the loan was met. Judge Davis granted extension until Oct. 2 of the time for the receiver's report on the company's condition.

U. S. TO BE REPRESENTED AT NEXT MISSOURI OIL HEARING

Attorneys-General of Wisconsin and Oklahoma Also to Attend Proceedings.

JEFFERSON CITY, Sept. 1.—Attorney-General Barrett today received notice that a representative of the Federal Government and at least two State Attorneys-General would be here on Wednesday, when suits should be instituted against the Standard Oil Co. of Indiana and other oil companies operating in Missouri, will be resumed.

Stanley Finch, special Assistant United States Attorney-General, will be here on behalf of the Government which last June filed anti-trust suits in Federal Court at Chicago against more than 50 oil companies.

State Attorneys-General Herman Lekern of Wisconsin and George F. Short of Oklahoma have stated they will attend the hearing.

The State virtually has concluded introduction of evidence in the hearings before a special commissioner of the State Supreme Court in progress here at intervals since Aug. 11. Robert Stewart of Chicago, chairman of the Board of Directors of the Standard of Indiana, will testify Wednesday on behalf of the company.

Greek Soldiers Killed in Bulgaria. By the Associated Press.

SOFIA, Bulgaria, Sept. 2.—It is officially announced that two Greek soldiers have been killed in a conflict on Bulgarian territory south of Petritsch.

999-YEAR CONTRACT ATTACKED IN SUIT HERE

Executor of Estate Alleges Company Has Not Carried Out Provisions of Agreement.

A 999-year contract is attacked in a suit filed yesterday against the Horticultural Development Co., with offices in the Pullerton Building, by the executors for the estate of James L. Mitchell, who was a resident of Franklin County, Ill., and died last September.

Mitchell contracted in November, 1922, the suit sets forth, to pay the company \$12,000 for 10 acres in Mobile County, Ala. The company was to plant and cultivate orange and pecan groves for 10 per cent of the proceeds for 999 years. Mitchell was to pay expenses. The executors allege that the company has not carried out its part of a contract and ask for return of a \$2400 initial payment and for an injunction against collection of notes Mitchell gave for the balance.

BOY TELLS OF HAMMER BLOW. Boy of Superstition Accused After Death of Butcher.

DETROIT, Mich., Sept. 2.—Thomas Boyce, who defied superstition last June 13, a Friday, when, in cell 13 of the old Australian convict ship, then on exhibition on the Detroit River, he was married while 13 witnesses attended and 13 mirrors were broken, stands in the shadow of a murder charge. An 11-year-old boy, Bernard Bellanger,

told the police yesterday that it was Boyce who struck Clyde Keller, 45, a butcher, on the head with a hammer. Keller's body, with a hammer beside it, was found in a moving van at the rear of Mrs. Irene Bellanger's apartment early Monday.

The story the boy told, the police say, was that his mother and his aunt and Boyce and Keller were drinking at the Bellanger home Sunday night. Boyce, the boy said, struck Keller with a hammer, Keller falling, but getting up and staggering from the house. He fell down an outside stairs and was dead when the others reached him. The boy said. He was then dragged to the moving van, the police were told.

Niece of Walter Hines Page Married. By the Associated Press.

SOUTHERN PINES, N. C., Sept. 2.—Miss Kate Raboteau Page, daughter of former Representative Robert Newton Page, and niece of the late Walter Hines Page, was married yesterday at her home in Waymouth, Southern Pines, to Livingston Biddle II, son of Dr. Biddle of Philadelphia.

U. S. Honduras Patrol Increased. By the Associated Press.

WASHINGTON, Sept. 2.—The cruiser Rochester has been ordered to the Honduras coast from Panama, to supplement the patrol being maintained there by the Tulsa.

the late Walter Hines Page, was married yesterday at her home in Waymouth, Southern Pines, to Livingston Biddle II, son of Dr. Biddle of Philadelphia.

STANDARD SEVEN THREAD ADOPTED BY ENGINEERS

Nuts and Commercially
Tapped Holes to Conform to
New Specifications.

NEW YORK, Sept. 5. — The American Engineering Standards Committee has approved as American standard a 22-page document, covering the finished work of the National Committee of Standardization and Unification of Screw Threads in the field of threads for machine screws, nuts and commercially tapped holes. The committee has done this work under joint sponsorship of the American Society of Mechanical Engineers and the Society of Automotive Engineers, and includes in its membership many of the most distinguished experts on this im-

portant and difficult subject. By the adoption of the report of this committee, screw threads are narrowed down to, and standardized upon, two series, an "American Course Series" for general work, and an "American Fine Series" for work in which a finer thread is desirable. The same form of thread is used in both.

The adoption of standard screw threads, the committee says, is perhaps the most important single advance in American industrial standardization, certainly in the mechanical industries, since screw threads are fundamental to design and manufacture in every field, and enter into almost every kind of manufactured product and machine.

Different classes of fit ("loose," "free," "medium" and "close") are established with corresponding numerical tolerances to provide for unavoidable inaccuracies of workmanship under practical conditions.

DIAMONDS CHEAP IN RUSSIA

By the Associated Press.
MOSCOW, Sept. 5.—Diamonds in Russia are cheaper relatively than food. Pure white, flawless stones, cut on American standards, can be had at \$100 a carat. Slightly yellow or "cinnamon" diamonds sell as low as \$20 a carat. But it is difficult to get these out of the country on account of the war.

The sellers usually are members of the old aristocracy or nobility who, like most other classes, find times extremely hard. Americans and Britishers who were the principal buyers of secondhand jewelry, have nearly all left Russia and in consequence the demand for precious stones is very small and prices have dropped in proportion.

K. K. TICKET IN MAINE

SAID TO INCLUDE DEMOCRATS
G. O. P. Committee Charges Hooded Order's Ballot Contains Candidates of Both Parties.
Special to the Post-Dispatch.
PORTLAND, Me., Sept. 5.—The troubled waters of Maine politics were further ruffled yesterday when the Republican State Committee made, or claims to have made, the eleventh-hour discovery that the Ku Klux Klan has included many candidates on the Democratic ticket.

Although it has been vigorously contended by managers of the campaign of Brewster and Fernald for Governor and United States Senator, respectively, that the Ku Klux Klan is not an issue in Maine, this alleged discovery of Klan support of Democrats has been seized upon avidly.

Advertisements appeared in papers today setting forth the Klan attitude. The Republican State chairman has issued a proclamation calling on all Republicans to take notice. He declares the Ku Klux Klan has sent out to its members sample ballots, on which both Democratic and Republican candidates are singled out for preference.

The Democratic managers rounded up the candidates on their ticket, whose names are put forth as being Klan endorsed. All but one, so far, have repudiated the Klan support and denied any sympathy with the hooded order. Only Democratic candidates for minor State and county offices are designated on the Ku Klux ballot.

AMERICA READY TO RESUME PALESTINE TREATY PARLEY

Would Negotiate on Rights of Missionaries and Protection of Holy Places in Mandated Territory.

Copyright, 1924, by the Press and Publishing Co., New York World and the Post-Dispatch.
LONDON, Sept. 5.—The British Government has received an intimation from the American State Department that the latter ready to resume negotiations for a treaty regarding equality of commercial rights, American missionaries, and the protection of holy places in the mandated territory of Palestine.

Under the Covenant of the League of Nations, all member states are guaranteed equality of commercial rights in mandated territory, but as the United States is not a member of the league, it has been necessary for her to negotiate separate "open door" agreements with the allies holding mandates.

As regard Palestine, however, there is more than the commercial question involved. The American State Department, it is understood, desires a guarantee regarding the rights of American missionaries in that country, and it is believed the United States wants to participate in the guardianship of the holy places there.

So far, that subject has been dealt with by the League Council. The council has turned over the duty to the committee composed of the consuls in Palestine of countries represented on the League Council.

JAPANESE SINK WARSHIP CAPTURED FROM RUSSIANS

Vessel Doomed Under Arms Treaty Used as Target for Airplane Bombs.

Correspondence of the Associated Press.
TOKIO, Aug. 15.—Stirring events of 19 years ago were recalled recently by the sinking off Yokosuka, of the old battleship Iwama, doomed under the Washington naval treaty. The old sea fighter was used as a target for practice by the naval air forces. Six bombing planes took part, sending the Iwama to the bottom in less time than was anticipated.

It was expected that the Iwama would provide two days' practice for the bombers and naval attaches of foreign countries were invited to witness the second day's operations. The invitations, however, were recalled because the Iwama was sent to the bottom the first day.

The Iwama was formerly the Russian battleship Orel of the Baltic fleet. She survived the battle of the Sea of Japan, May 27, 1905, only to be captured by Admiral Togo's fleet, the Iwama took part in 1914 in the operations which cleared the Pacific of German raiders.

OBREGON TO VISIT EUROPE

Mexican President's Trip Without Official Significance.

Correspondence of the Associated Press.
BERLIN, Aug. 18.—General Obregon will visit Europe next December, according to Gen. Pascual Ortiz Rubio, the Mexican Minister to Germany. He says the Mexican Government is now firmly established and Gen. Calles, recently elected to the presidency, will assume direction of a stable government.

Gen. Obregon will visit England first and will later go to France, according to the Berlin Minister. He will travel as an ex-President and without any official stamp.

Dawes' Milwaukee Date Changed.
By the Associated Press.
EVANSTON, Ill., Sept. 5.—Charles G. Dawes, Republican nominee for the vice-presidency, has been advised by Republican National Committee officials that the date for his Milwaukee address has been moved up from Sept. 15 to Sept. 11. The change was made necessary, the nominee was advised, by a prior reservation held for Sept. 15 on the Milwaukee coliseum, where he will speak.

Here's the Latest—Cod Liver Oil in Tasteless Tablets
Greatest Flesh Builder For Skinny, Weak, Run-Down People—Full of Vitamines
No more will weak, thin, unfortunate children cry in protest when the nasty, fishy-tasting, horrible-smelling cod liver oil is brought out.
Medical science progresses rapidly, and now you can get at your druggist's real, genuine cod liver oil in sugar-coated tablets that young and old can take with ease and pleasure.
Even the run-down and skinny grown-ups, who ought to take cod liver oil, because it really is the greatest vitamins food and builder of healthy flesh in the world, will feel extremely joyful when they read this welcome news.
Of course, doctors have been prescribing cod liver oil in tablets under another name for several years, but it is only of late that one can walk into a drug store and get a box of these flesh-producing tablets just as easy as a bottle of magnesia.
Thin, run-down, anemic men, women and children who need to grow strong and take on flesh are advised to get a box of McCoy's Cod Liver Oil Tablets, and if you don't gain 5 pounds in 30 days just get your money back.
One woman gained 15 pounds in 5 weeks, according to her own doctor—another 10 pounds in 3 weeks. A very sickly child, aged 9, 12 pounds in 7 months, and now plays with other children and has a good appetite.
Just ask for McCoy's Cod Liver Oil Tablets, Wolff-Wilson Drug Co., Judge & Dolph Drug Stores, Enderle Drug Co., Johnson Bros. Drug Co., or any good druggist will tell you that they are wonderful flesh and health builders. Only sixty cents for 60 tablets.
"Get McCoy's, the original and genuine Cod Liver Oil Tablets, and beware of imitations."

Two-Trouser Suits

For Men and Young Men, at

\$36

New Fall chevrons, cassimeres and worsteds in both single and double breasted models make this group of Suits most complete. Some of the clothes are styled on the new English lines—with broad, boxy coats, blunt vests and wide, straight trousers. Others follow the more conservative modes. Dark and medium colors. All sizes, including stouts, slims and stubs.

For Young Men of 15 to 20—
"Academy High"
Two-Trouser Suits

Priced From

\$19.50 to \$36.50

Our special section devoted to young fellows between 15 and 20 has become Outfitting Headquarters for high-school and college students. Chaps familiar with the new style trend are enthusiastic over our "Academy High" Suits—embodying, as they do, the new English effects—boxy coats, blunt vests and wide trousers! The fabrics, too, are exceptionally smart, and they combine the newest colors with the best Fall patterns.

Custom Tailored Suits

With Extra Trousers at

\$48

NOMINEES LEAVE
ANTI-K. K. K. PLANK
TO CONVENTIONConference of Missouri
Democrats Adjourns
Without Taking Definite
Action on State Platform.STATEMENT OF
DAVIS FAVOREDHawes Says Ku Klux Issue
Will Be Forced to Con-
vention Floor if Evaded
in Committee.The Jefferson City Correspond-
ent of the Post-Dispatch.JEFFERSON CITY, Sept. 5.—
Democratic nominees for State of-
fices and Congress, who met here
yesterday in an effort to reach an
agreement on an anti-Ku Klux
Klan plank and other prospective
planks for the Democratic State
platform, adjourned late yesterday
afternoon without taking any
definite action, but notice was
given by St. Louis Democrats
that a plank denouncing the Klan
name would be demanded when
the Democratic platform conven-
tion meets here Tuesday.
Early in the executive session
a dozen nominees present agreed
to take no action toward drafting
planks to be recommended to the
platform convention, which effec-
tively forestalled plans for drafting
anti-Klan plank at the confer-
ence.However, several of the nomi-
nees and party leaders expressed
an opinion that the Ku Klux Klan
should be denounced by name in
the platform, and that the plank
should be a reproduction, wholly or
part, of the statement of J. L.
Davis, Democratic presidential
candidate, in denunciation of the
Klan, in a speech on Aug. 22 at
St. Louis, N. J.Most of the candidates present
indicated that they would be favor-
able to a public expression of
such an opinion, asserting
they would not make a statement
until after the platform
convention is adopted.Hawes Brings Up Question.
Harry B. Hawes of St. Louis,
candidate for re-election to Con-
gress from the Eleventh District,
brought up the Klan question in
conference, and in an extended
speech urged denunciation of the
Klan by name.Hawes said that if the
Klan in the State platform
could be contrary to the stand-
ard by Davis, and in effect
put the national ticket "out
to pasture," this would result
in a kind of Democratic cam-
paign in the State, he said.
Both before and after the con-
ference, Hawes said that if the
Klan submitted to the conven-
tion a plank denouncing
the Ku Klux Klan by name, a
fight for such a plank would
be carried to the floor of the con-
vention. Efforts will be made to
use any differences in the
platform which drafts the plat-
form, he said, in order to avoid
fight on the convention floor.Duggan's Warning.
George F. Duggan of St. Louis,
candidate for Congress from the
fifth District, also urged
denunciation of the Klan by name.
He said that failure to insert such
a plank would result in the Demo-
cratic loss of the State, and losing
the State would result in the Demo-
cratic loss of the Nation.
Duggan said that if the
Klan submitted to the conven-
tion a plank denouncing
the Ku Klux Klan by name, a
fight for such a plank would
be carried to the floor of the con-
vention. Efforts will be made to
use any differences in the
platform which drafts the plat-
form, he said, in order to avoid
fight on the convention floor.

ST. LOUIS POST-DISPATCH

Founded by JOSEPH PULITZER
Dec. 12, 1878.Published by the Pulitzer Publishing
Company, Twelfth Boulevard
and Olive Street.THE POST-DISPATCH PLAT-
FORM.

I know that my retirement will make no difference in its cardinal principles, that it will always fight for progress and reform, never tolerate injustice or corruption, always fight for the rights of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.

LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

Opera in Old St. Louis.

PRODUCTIONS at our Municipal Theater this summer have ranged from horse-play musical comedy to a worthy performance of "Carmen" in Italian. Omitting "Carmen," the season, as a whole, has shown a startling retrogression from previous standards, whereas the original purpose of the theater was not only to entertain the public but to popularize good opera, encourage worthy American singers and advance musical art generally in America.

In the opinion of the writer, who is an old operator of 50 years' experience, this purpose will not be accomplished until the practical methods are adopted of a Savage and his Castle Square Opera Company, of blessed memory, at our old Exposition Music Hall. There was a plain business man, not a musician, but a lover of good opera of any kind and a judge of voices and personality. He believed that the masses would support good opera, at reasonable prices, if sung in English, with a competent cast, chorus and orchestra and adequately staged. He tried it with his own money and succeeded and he had no free theater, no guarantee and made no appeals for public support.

Under Savage, for several long seasons, we heard favorite operas, all in English, ranging from Gilbert and Sullivan and the best operettas of the French and Viennese schools to Faust, Carmen, Aida, Lucia, Rigoletto, Lohengrin, Tanhauser, Flying Dutchman, Freischütz, etc. He had a double cast of all the principal roles, which sang alternately and guarded against illness or overwork. He combed America for promising new singers and gave us Norwood, Maud Lillian, Bert, Lavelle, Ivell, Joseph Sheehan, Hoff, Boyle and others of equal ability. Our Josephine Ludwig made her debut with this galaxy and afterwards became the famous Norma of the Metropolitan and leading European opera houses. Savage prices were \$1 for best seats. What would a Savage do at our Municipal?

JEFF MACKAY.

Street Wear by Heavy Trucks.

THE property owners of Loughborough avenue have been taxed \$18 per foot for the street, with not one cent benefit to the owners. Property owners, organize and get your rights. Ten-ton trucks, 25 miles per hour; that is who you are making the streets for. Reduce the speed to six miles and prohibit such heavy trucks. This shaking down houses and the killing of people can be cut out. Reduce the speed till there are no accidents. If they do not get where they are going today, let them get there tomorrow.

LOUGHBOROUGH.

To Women Voters.

AS a deafmute, request that all Republican women vote for the Hon. John W. Davis, America's great progressive Democratic candidate for President of the United States. He is not a man like many, who knows you only at election time, but he knows you at all times. If I could only speak I would tell you that Mr. Davis has done. Mr. Davis has been a very good friend to us when we used to live in Shumston, W. Va., for many years, seven miles from Davis' home in Clarksburg. It is the only way in which I have been able to think of Mr. Davis and show my appreciation of what he has done for me. I ask all who are affiliated with organized labor people to support Mr. Davis on election day, Nov. 4, 1924, and I hope he will be the next President of the United States.

My husband is a member of Newark Union, No. 104, but we will bolt the La Follette-Wheeler ticket and support Davis-Bryan this year. I am glad to hear many million women will vote for Mr. Davis, as I know he will make a great President for the people. La Follette was always opposed to the Democratic ticket and Democrats should not vote for him. I am still Republican, but am working hard to help elect Mr. Davis as President.

Vote for all Democratic candidates for Congress and Governor in Missouri on Nov. 4, 1924.

MRS. AUGUSTA C. WINTER.

Newark, N. J.

No Religious Strife Here.

JUST a word about the little city of Waterloo, where the K. K. K. is very conspicuous by its absence.

In this little town, what we call court week, Sept. 2 to 6, court lasted just exactly one hour and 20 minutes of the entire week and the Judge was on his way back to East St. Louis. We have Catholics, Masons, Protestants, Knights of Columbus, etc., but in the 10 years I have lived here I never heard a religious argument in the town. Waterloo is Paradise in comparison with Herrin, Ill. The reason? We have no Glenn Young.

A. B. WILLIAMS, Waterloo, Ill.

KLAN REPUDIATION IN MISSOURI.

Progress is making towards the adoption of the plan suggested by the Post-Dispatch that the State conventions of both the Democratic and Republican parties repudiate the Ku Klux Klan by name. The Democratic candidates, State, judicial and congressional, in conference at Jefferson City, decided to present a plank repudiating the Klan and support it in the convention.

Of course, no decisive action was taken by the conference, in deference to other members of the convention, which will be composed of these candidates, the members of the State Committee, and the nominees for the General Assembly. But the agreement by the conference on a resolution repudiating the Klan is practical assurance of the action of the convention.

The resolution agreed upon embodies the language of the speech made by John W. Davis, Democratic candidate for the presidency, at Sea Girt, N. J. It is a sweeping repudiation and condemnation of any organization, including the Klan, by name, which proscribes citizens on account of race, creed or color. It denounces any attack on religious freedom from any source.

The speech made by Representative Harry B. Hawes of the Eleventh Congressional District, who is a candidate for re-election, was comprehensive and convincing, not only with regard to the menace of the Ku Klux Klan organization and activities to the peace and order of the American people and the stability of constitutional republican government, but as to the attitude of Democratic organizations everywhere in opposition to the political activities of the Klan and to its purposes and practices. Mr. Hawes cited the condemnatory resolutions of a large number of organizations of various kinds, including the American Federation of Labor, the American Bar Association and the American Legion. He then showed that the national Democratic convention's failure to name the Klan in its strong resolutions was defeated solely because the states voted under the unit rule. The majority of the delegates favored naming the organization, and the proposal was defeated by a majority of only two votes.

Since then Mr. Davis has repudiated the Klan and every Democratic convention which has met subsequently has denounced the Klan by name. The Democrats of Maine, under the leadership of an antislavery candidate for Governor, are making a fight against the Klan. The Democrats of Kansas, Oklahoma, Illinois and Iowa have denounced the Klan. The Democrats of Oklahoma and Texas have repudiated the Klan and defeated Klan candidates.

The bitter fights of Southern Democrats to oust the Klan from control, attended by disorders and anarchy and lawless activities, will be repeated in this State unless the Klan is put out of politics. It can be put out of politics for good if it is repudiated and condemned by the conventions of both parties.

The Democrats are wise in taking the leadership in the policy of repudiating and condemning the Klan. That party at least will place itself in harmony with the principles of the Constitution and with the prevailing sentiment of the American people.

We believe the Republicans will be foolish if they do not take similar action. They have it in their power to destroy the issue in politics, and enable the parties to fight the battle on the economic and political issues which do not involve the rights and liberties of citizens. Everywhere Klan affiliation with a political party has proved a liability, not an asset. In the end any party entering into an alliance with it will be defeated and destroyed.

DEMOCRACY IN MEXICO.

Mexico is about to experience an historic event. Obregon, retiring President, will turn over the reins of government in peace to his successor, Gen. Calles. This prospect is assured by the fact that the overwhelming majority of the Senate and Chamber of Deputies are adherents of Calles and are expected to declare him elected as soon as they are organized into an electoral college.

The survival of the Obregon regime and the peaceful turnover of its policies to a successor mark a signal triumph for liberal government south of the Rio Grande. Normalcy would have been resumed had the De la Huerta revolution either won its objective or, by inaugurating chaos, cleared the way for more dictatorship and more chaos. Happily, that eventuality did not come to pass, and Mexico is out of its old rut.

Calles is one of the outstanding national leaders of the world. He is a man of culture and liberality, a student of government, a patriot and philanthropist. He will carry on what the Obregon administration started in education, in the amelioration of the condition of the working classes and the administration of the laws governing land titles.

The problem of the new Government, as was that

of Obregon, will be twofold: The continuance of the program of domestic progress and reform and the saving of Mexico for Mexicans by successful resistance to the encroachments of foreign concessions upon the oil and other natural resources of Mexico.

WISCONSIN'S MESSAGE.

When wheat and corn took their July jump Republican politicians were hilarious. Here was manna from heaven—the timeliest exhibition of divine intervention in our political annals. The farmers sullen and sore would forget their grievances in the radiance of this sudden prosperity. Their old loyalty to the Republican party—a loyalty that had made that party a sort of ruling power—would reassert itself.

There had been defection. Vows of apostasy had been taken. That was all over now. The Northwest revolt would fade as a mist. La Follette's spell was broken. Even Wisconsin, which the Great Dissembler had held in fee simple, would trek back to the old faith; not entirely, but in spots. Thus deposed the party seers.

Wisconsin has just spoken by way of a primary. She is still La Follette's by a ratio of two to one. Possibly the much heralded farm prosperity is not so real as the barkers ballyhooed. It must be assumed, also, that the Wisconsin farmers either did not read Mr. Dawes' acceptance speech at Evanston or his special message to the farmers from Lincoln, or if they did they were not impressed. Anyhow, the happy speculations which the Republican campaign claimants indulged in have been voided so far as Wisconsin is concerned. If the so-called "reports" brought in to Republican headquarters from the rest of the La Follette territory are as wide of the mark as those from Wisconsin there must be a good deal of uneasiness in the Coolidge council.

The significance of the Wisconsin primary is unmistakable. La Follette is not a negligible quantity in this campaign. What his following is among the farmers outside of Wisconsin may be problematical, but whatever it is it has not been lured away from him by the slight betterment in agricultural prices. It looks, too, as if a do-nothing administration, in order to recapture the farmer vote, will have to offer something better than a say-nothing candidate.

THE CHASE-FIRPO BOUT.

The Rev. Cannon Chase has been making a great to-do about the morals of Luis Firpo, the Argentine pugilist, who, he insists, must be deported. What Firpo's morals may be we do not know. Further, we don't care two whoops, nor one whoop, nor even one-half a whoop, about Firpo's morals. And that, we should willingly wager, is the attitude of at least 99 percent of the population. Again, we should be willing to wager that not a citizen of the United States, not even the Rev. Cannon Chase himself, will seriously contend that Firpo's presence in the country will contaminate our morals, public or private, or in any way affect them.

Why, then, should Mr. Chase camp so importunately on the trail of Firpo? Is it the suspected immorality of Firpo that inspires Mr. Chase or is it his determination to prevent the prize fight in which Firpo is scheduled to appear? If the latter is the motive Mr. Chase's offense is worse than insincerity; it is unconscionable hypocrisy. In the terminology of the ring he is a foul fighter who might well devote his energy to building up his own morals.

"BLUE SKY" PROTECTION.

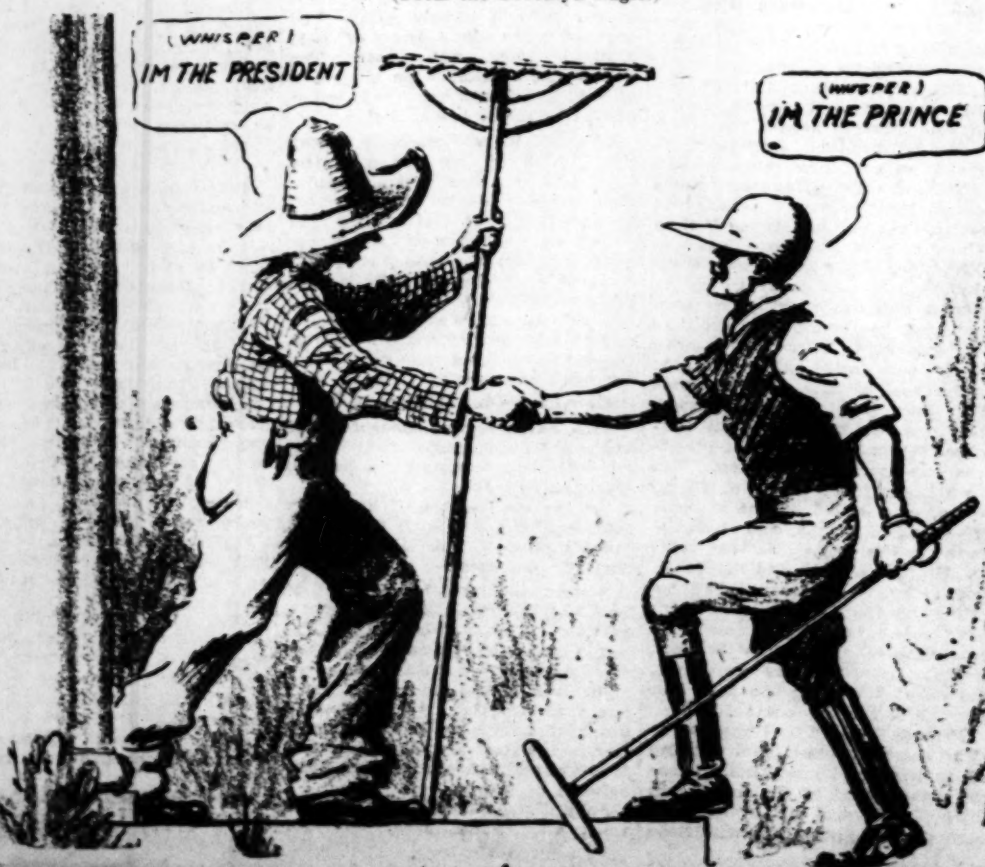

The "blue sky" division of the State Department of Finance, says Deputy Bernard T. Hurwitz, has saved unwary investors \$40,000,000 in the past three years by refusing registration to companies offering securities for sale to this amount. These securities were either fraudulent in character or were premised on business schemes without hope of success.

The department is enjoying helpful co-operation from the Better Business Bureaus of St. Louis and Kansas City, but encounters difficulty in the fact that influential business men, in return for the gift of a few shares, sometimes lend their names to the promotion of questionable enterprises. Men who will take a chance in this misleading investors whose confidence they command are not only stealing from themselves from those who can ill afford the loss but are stealing from others.

We are gratified to note Mr. Hurwitz's expression that the Missouri Securities Department "should be an exchange or clearing house of investment information." It should be even more. When it is beyond the official province to advise against investments technically sound but with doubtful possibilities it should advise the client to seek advice from a private source, such as a trustworthy bank, as to the desirability of the investment.

INCOGNITO.

(From the Brooklyn Eagle.)

"YOU MUSTN'T EMBARRASS ME. THIS IS PRESIDENTIAL YEAR"

JUST A MINUTE

Written for the Post-Dispatch
By CLARK McADAMS

(Copyright, 1924.)

I REMEMBER.

1924 Model.

I remember, I remember,
The house where I was born;
The little window where I'd sit
And never hear a horn;
I never saw a Ford or Stutz,
And horses traveled slow;
But now some fool that has a car
May knock me for a row.

I remember, I remember,
The booze I used to read—
The red-skins and the dust they bit,
Some hero and his steed.
I remember, I remember,
My parents then; what would they say
To drive over-sexed?

I remember, I remember,
Where men were used to drink
A glass or two of honest brew—
There was no need to wink.
Good spirits sold so cheaply then
That are so costly now.
And though they're dear there's always fear
Of fever on the brow.

I remember, I remember,
When twenty bucks a week
Would keep a man, his wife, and kids—
Those days are now antique.
The cost of living has gone up,
And now 'tis little joy
To know things cost a damn sight more
Than when I was a boy.

JOS. D. HEAD.

Sir: While I consider your sign hunters silly, smart alecks, borsome cranks, small things for small minds, intruding asses, I wonder how they missed the billboard picturing a park wherein two men are sitting on a bench, one prosperous and contented because he saved, the other one dejected and poor because he did not. Here is happy. The miserable, deserted man who did not save is a flattering picture of Secretary Hughes. I do not know what the moral is.

BOARD BILL.

PARAGRAPHS.

An Eastern newspaper intimates that Charles Dawes is pro-Klan. Most every other sheet in the country intimates that he is pro-fane.

In fact, with that glib tongue of his, it shouldn't at all be a hard task for Charles to be sworn in as President some day.

Both of the Charles, Dawes and Bryan, recently got together and enjoyed a little talk about old times; and we can just about imagine who was listening in at the key-hole.

See where the skull of a king was recently auctioned off in France for 25 cents, and if our knowledge of kings is correct what used to be inside of it probably wasn't even worth that.

Virtually being assured of the gubernatorialship of Texas, we sincerely hope Ma Ferguson is the kind of a woman who can tackle a job of such proportions without putting gloves on her hands.

Although the possessor of a farm in Canada, it cannot be said that the Prince of Wales goes in for agriculture, although he does plow up the ground every time he falls off his horse.

THEODORE TRILSEY.

Sir: If the Dodgers only had one more Vance they would simply Ad Vance.—L. S.

I AM THE—

I am the one who holds the sack when they go snipe hunting.

I get all the fine promises before election

I am the one who is IT when they pass the apple sauce.

I am the one who hears them say "I am a friend of the people," and then they tax me for it.

I'm the goat between the capitalist, the farmer, the middle man and labor. I hear the arguments and pay for the music.

I read of starving farmers and pay 60 cents for a steak.

I am the one who hears railroad's people say starvation—and I have to work a week to get to ride an hour.

I am the one who raises families while others raise prices.

I am the bull's-eye for electoral fireworks during a campaign.

I'm the one who suffers from dyspepsia after trying all new foods and dishes that are lately invented.

I am the bait for summer foodless boarding houses and waterless watering resorts—the target for flingers, mosquitoes, wood ticks, fleas, etc.

I am the experimenter, example of patent medicines, pills, tins, doctor bills, etc.

I'm the goat for all new styles and epidemics of fads that float over the world.

I'm the one who pays all bills.

I'm the one who intelligently think inferior—and the lowbrow thinks a joke.

I always follow the band wagon and the music.

I never travel in the same direction. I am very fickle and changeable. Yet I am all powerful.

I AM THE CROWD. CONTRIB.

School Days.

School days! It's in the air, meaningful and imaginative. The oft-quoted, "The dreary days are come," is less poignant, less significant than the exotic "School days." How the words thrill! They send us flying back to the time when first we were taken to kindergarten by a fond parent, proud that here had reached the age when organized knowledge takes charge of her offspring. Remember how your awe melted into resentment at being left alone in strange hands; how the hot tears came rolling down your face until wearied, you stopped crying, looked about you and once more became awed? Then the rapid familiarity with other children, until suddenly you found yourself swallowed into the fragrant dream known as kindergarten days?

How many of us having reached man's estate do not cherish the memory of school days? Hardened, indeed, is he who can look upon his mind's image of the first few days at school without experiencing an inexpressible longing akin to a union of sadness and complacency; and happy is the man whose sensitiveness during this impressionable period has remained with him, that he may thrill again to the cry, "School days are here!"

The MIRROR
PUBLIC OPINION

This column is designed to give without bias the latest comments of the leading publicists, newspaper editors and columnists on the questions of the day.

THE REDS IN BRITAIN.

From the New York Sun.

THE Reds in Britain are apparently coming more active. They are to exploit the impatience which Ramsay MacDonald's followers have with his failure to introduce drastic legislation. They are planning up at the Trades Union Congress, which will be held in October. As a matter of fact, the British Reds are very few, but extraordinarily noisy. Last year they denied membership in the Labor party, they are any stronger this year.

Surprising. It is well known that they have been financed from Moscow in consequence, able to publish a series of communistic appeals, and is no danger that they are in sufficient strength to menace the leadership of Labor. In fact, they have five districts in Scotland, and Clyde side, and South Wales, and miners they are not formidable.

Now he has a chance to play it. For when the Prince goes to his ranch at High River, Alberta, on the 14th, he will have to go to work.

"Although it was properly added to the inherited duchy of Cornwall, the Prince's ranch manager, when he arrives in the morning, the Prince asks what there is to be done. One day there is stock to be corralled. The next there is hay to be cut in. Or perhaps post holes must be dug. The Prince of Wales works at these much chores just like any cowboy.

REGULATION OF AIRPLANE.

From the New York World.

FOR reasons not entirely clear, it is difficult to enforce laws in aviation. New York City has a law which prohibits flying over crowded places, but it is almost impossible to perform crazy stunts over the city. And now the death of a man in an accident on Long Island attention to the fact that airplanes may be flown in the air.

dated planes may be flown in the air. The pilots with more courage than of itself might not be important. Pilots, untrained and unlicensed, are permitted to take passengers and mail.

per head. The machines are unfit for flight. The pilots are unskilled. Maj. J. D. Hemminger, at Mitchell Field, attributes the number of accidents among aviators to the lack of Federal regulation. A bill has been introduced in Congress to create a Federal Aeronautics in the department of commerce. This would provide for the regulation of all aircraft and the training of pilots. It should be passed at the next session.

PRINCE EAGER FOR
BIG POLO GAMES

Royal Guest Making Most of Vacation for There's Work to Be Done on Canadian Ranch.

Special to the Post-Dispatch.

RYOSSET, N. Y., Sept. 5.—The Prince of Wales, in America on his holiday, is preparing for a day of rare enjoyment tomorrow, when he will attend the international matches between the crack British and American polo teams at Meadowbrook Club. He will witness the games from a box midway between the goal posts. Scotland Yard and State Department Secret Service men plan precautions to avoid another such crush as was occasioned by his appearance in the paddock at Belmont Park when Eplard and Zeev raced.

The Prince's own polo is improving, as shown by his fourth day on his ponies. His shots were more accurate and his play more vigorous than on the earlier days.

When the Prince arose about noon today, it was learned that he had retired about 1 a. m., having spent the evening with Long Island friends with whom he had dinner. This afternoon he played polo at the W. R. Grace estate. It was his fifth game since his arrival.

Threatening Letter.

While the Prince is at play the Scotland Yard men, special State Department agents and New York State troopers who comprise his guard, are working with New York police to trace the authorship of a half-incoherent letter turned over to the police yesterday in which the writer threatened the life of the Prince. Although the letter is thought to be the product of a deranged mind, the direct threat carried in the words "I want to kill him," caused the Prince's guard to take extra precautions for his safety.

Last night every automobile entering the grounds of the Burden estate, headquarters of the Prince during his stay here, was examined by officers before it was allowed to proceed. New York authorities have requested that they be notified in advance if the Prince decides to visit New York City.

The Prince yesterday afternoon played golf on the Couden private links.

A feature the Prince most enjoyed at a dinner at the Piping Rock Club Wednesday was Will Rogers. The gum-chewing, drawling comedian, tickled the fancy of the Prince, who likes to laugh. Rogers, in black riding breeches and red vest, played polo against him yesterday. Rogers went to lunch with him after the game. It is Rogers' opinion that the Prince gives credit for having suggested bringing a musical comedy complete with ballet, acrobatic dancing girls and orchestra—direct from Broadway—for a royal one-night stand on Long Island. But it is not known whether the Prince accepted the proposal.

All Not Play for Prince.

There is some apprehension among the Prince's party that the American public is getting him "all wrong." There is fear among those close to the British crown prince that because the United States bears mostly of Wales' playing polo, going to races, dancing at Pinchbeck, dancing at teas, at dinners, and dancing at dinners that until 5 in the morning, it is beginning to believe him little more than a "jazzhound."

The Prince came here for a holiday, said a spokesman for Wales. "He does not intend to do a tap of work until he leaves the United States on Sept. 14. He has been so rushed for a life time that even his tutoring was oral rather than by book. There was no time for book study."

"Now he has a chance to play it. For when the Prince goes to his ranch at High River, Alberta, on the 14th, he will have to go to work."

"Although it was properly added to the inherited duchy of Cornwall, the Prince's ranch manager, when he arrives in the morning, the Prince asks what there is to be done. One day there is stock to be corralled. The next there is hay to be cut in. Or perhaps post holes must be dug. The Prince of Wales works at these much chores just like any cowboy.

"At home it is the same. Much of his time is devoted to public activities. He has interests in India and Australia. He must know as an officer of the royal navy how to navigate a ship; as an officer of the army he must be able to handle a regiment. All of that takes time. It is only natural that he should enjoy his present relaxation and wish to make the most of it."

His Business Manager Arrives. Sir Walter Peacock, financial secretary to the Prince for Cornwall, who arrived on the steamship Mauritania today, said that Cornwall is the duchy from which the Prince derives his chief income. The Canadian ranch near Calgary, Alberta, with 4000 acres, on which the Prince is raising blooded cattle and thoroughbred horses, is not holding a revenue to Wales' coffers, as all its net receipts are being put back into improvements, explained. When the Prince's problems concerning the ranch are discussed, the secretary said.

PRINCE EAGER FOR BIG POLO GAMES

Royal Guest Making Most of Vacation for There's Work to Be Done on Canadian Ranch.

Rosset, N. Y., Sept. 5.—The Prince of Wales, in America on his holiday, is preparing for a day of care and enjoyment tomorrow, when he will attend the international matches between the crack British and American polo teams at Meadowbrook Club. He will witness the games from a box midway between the goal posts. Scotland Yard and State Department Secret Service men plan precautions to avoid another such crush as was occasioned by his appearance in the paddock at Belmont Park when Epiphany and Zez were seen.

The Prince's own polo is improving, as shown by his fourth day on his ponies. His shots were more accurate and his play more vigorous than on the earlier days.

When the Prince arose about noon today, it was learned that he had retired about 1 a. m., having spent the evening with Long Island friends with whom he had dined. This afternoon he played polo at the W. B. Grace estate. It was his fifth game since his arrival.

Threatening Letter.

While the Prince is at play the Scotland Yard men, special State Department agents and New York State troopers who comprise his guard, are working with New York police to trace the authorship of a half-inch letter turned over to the writer yesterday in which the writer threatened the life of the Prince. Although the letter is thought to be the product of a deranged mind, the direct threat carried in the words "I want to kill him," caused the Prince's guard to take extra precautions for his safety.

Last night every automobile entering the grounds of the Burden estate, headquarters of the Prince during his stay here, was examined by officers before it was allowed to proceed. New York authorities have requested that they be notified in advance if the Prince decides to visit New York City.

The Prince yesterday afternoon played golf on the Couden private links.

A feature the Prince most enjoyed at a dinner at the Piping Rock Club Wednesday was Will Rogers. The gun-chewing, drawling comedian tickled the fancy of the Prince, who likes to laugh. Rogers, in black riding breeches and red vest, played polo against him yesterday. Rogers went to lunch with him after the game. It is Rogers to whom rumor gives the credit for having suggested bringing a musical comedy complete—pomp, ballet, acrobatic dancing girls and orchestra—direct from Broadway for a royal one-night stand on Long Island. But it is not known whether the Prince accepted the proposal.

All Not Play for Prince.

There is some apprehension among the Prince's party that the American public is getting him "all wrong." There is fear among those close to the British crown prince that because the United States has mostly of Wales' playing polo, going to races, dancing at Ingletons, dancing at teas, at dinners, and dancing at suppers that until 5 in the morning, it is beginning to believe him little more than a "jazzed" man.

"The Prince came here for a holiday," said a spokesman for Wales. "He does not intend to do a lap of work until he leaves the States on Sept. 14. He has been so rushed for a life time that even his tutoring was oral rather than by book. There was no time for book study."

"Now he has a chance to play and he means to make the most of it. For when the Prince goes to his ranch at High River, Alberta, on the 14th, he will have to go to work."

Although it was properly added to the intended duchy of Cornwall, he places himself at the disposal of his ranch manager. When he arrives in the morning, the Prince said there is stock to be corralled. The next thing is to be got in. Or perhaps post holes must be dug. The Prince of Wales works that much chores just like any cowboy.

Public Activities.

"At home it is the same. Much of his time is devoted to public activities. He has interests in India and Australia. He must know as an officer of the royal navy how to navigate a ship; as an officer of the army he must be able to handle a regiment. All of that takes time. It is only natural that he should enjoy his present relaxation and wish to make the most of it."

His Business Manager Arrives.

Mr. Walter Peacock, financial secretary to the Prince for Cornwall, who arrived on the steamship Mauretania today, said that Cornwall is the duchy from which the Prince derives his chief income. The Canadian ranch near Calgary, Alberta, with 4000 acres, on which the Prince is raising blooded cattle and thoroughbred horses, is not a revenue to Wales' coffers, as all its net receipts are put back into improvements, he explained. When the Prince returns to his Canadian ranch, business problems concerning the ranch will be discussed, the secretary said.

British Writer Deplores Press Pursuit of Prince.

LONDON, Sept. 5.—The press is in danger of becoming a public

BRIDE OF ST. LOUIS "MILLIONAIRE HOBO"

MRS. JAMES EADS HOW.
Photographed at Buckingham Annex here.

JAMES EADS HOW AND BRIDE TO HOLD RECEPTION TONIGHT

"Millionaire Hobo" and Mrs. How to Appear at Hall at Thirtieth and Pine Streets.

James Eads How, known as the "millionaire hobo," and his bride, Mrs. Ingeberg Sorenson How, will hold an "informal reception" tonight at the International Brotherhood Welfare Association Hall, Thirtieth and Pine streets, at which plans for the coming semester of the local "Hobo College" and for relief of unemployment will be discussed.

Mr. and Mrs. How, who were married in Chicago Aug. 19 and went East on a honeymoon trip, arrived in St. Louis last night and stopped at the Buckingham Annex. They will depart for Los Angeles tonight, as How is anxious to study labor conditions on the Pacific Coast. He predicts increased unemployment this year, particularly in the West.

Although he says marriage will not cause him to give up his nomadic habits and settle down to housekeeping, How juredendored one habit last night. For reasons of sentiment or exercise, he used to, when coming here from the East, detain at Granite City or East St. Louis and walk into St. Louis over the Eads Bridge. Capt. James Eads, last night he and his bride rode into St. Louis.

How's stay at the Buckingham also caused some of his fellow hoboes to gasp. One recalled that How preferred Havlin's Hotel and Old Ironsides, until they passed away, after which How's domicile was wherever he hung his hat. How's apparel remains about the same. Today he was wearing a blue serge coat with a thin red stripe and blue serge trousers with a white stripe, an old straw hat, garterless socks and lopsided shoes.

FUNERAL OF CHARLES LESS WILL BE HELD TODAY

Charles Less, president and treasurer of the Modern Auto Repair and Reconstruction Co., 4613 Olive street, who died suddenly Wednesday night, will be buried from his home, 6210 Waterman avenue, today.

Less had been driving with his wife, Viola, and his daughter, Effie, and, a few minutes after returning about midnight, he complained of difficulty in breathing. Mrs. Less summoned a physician but her husband died before he arrived. Less was 60 years old and is survived by his widow and two daughters.

GEN. J. B. SANBORN MARRIED

Chicago Woman Bride of Aged Veteran of World War.

By the Associated Press.

CHICAGO, Sept. 5.—Maj.-Gen. Joseph B. Sanborn, who led Chicago's "Fighting First," then the 131st United States Infantry, in France, was married yesterday to Miss Willa Alice Weeks. The bride is a sister of Mrs. Helen Weeks Ellis, widow of the late Col. Samuel E. Ellis, steel magnate.

Sanborn was 62 years old at the time of his distinguished World War service. Mrs. Sanborn is 49. The general's first wife, Mrs. Julie Flanders Sanborn, died Jan. 27, 1921.

Sanborn because of the scandalous way in which the Prince of Wales has been pursued almost into his own bathroom by cameramen and interviewers, "Ocellus" writes in the weekly review, the Outlook.

"The Prince," the writer declares, "is a public character, but he is entitled to his privacy and to the rest of us are. This applies also to the King and Queen and Princess Mary, who can hardly move outdoors without finding themselves in the next day's picture papers."

TEST MADE OF MOVIE BROADCASTING

Device Invented by Son of Hetty Green, Who Spent \$200,000 in Experiments.

By leased wire from the New York Bureau of the Post-Dispatch.

NEW YORK, Sept. 5.—Experiments demonstrating the practicability of broadcasting motion pictures by wireless were made yesterday at the Mark Strand Theater by W. H. Marshall, secretary of E. H. R. Green of South Dartmouth, Mass.

Green, the son of Hetty Green, is a multimillionaire. He has been conducting the experiments for 18 months in specially built laboratory on his estate near Buzzards Bay. President Samuel W. Stratton of the Massachusetts Institute of Technology attended a test Saturday, at which a motion picture was transmitted 40 feet by wireless. He was so impressed that he detailed two experts from the institute staff to assist Green in perfecting the invention.

Marshall said Green had established the practicability of the device for sending motion pictures short distances and was confident that in another year he would have a set suitable for general broadcasting of movies.

The basis of the apparatus, he said, is similar to the device for transmitting still pictures through the air.

Col. Green's WMAF broadcasting station is one of the best in the East, and from letters he has received from England, the strongest transatlantic transmitter in this country.

Eighteen months ago he got the idea of transmitting motion pictures. He constructed a special building for the experiments and installed machinery at a cost of more than \$200,000. Much of the apparatus was imported from Germany.

Whatever patents Col. Green may acquire he will not commercialize, according to Marshall. The idea of radio broadcasting has so caught his fancy that he seems willing to spend huge sums in furnishing the people at large with entertainment through the air. He plans to establish a completely equipped movie broadcasting station when the plan has become a proved success.

Social News

FORMAL announcement is made today of the engagement of Miss Eleanor von Brecht, daughter of Mr. and Mrs. Charles E. von Brecht of Forest Ridge, and Thomas E. Mulvihill Jr., son of Mr. and Mrs. T. E. Mulvihill, of Cabanne avenue. The wedding will take place in January. Miss von Brecht is a graduate of the Sacred Heart convent at Maryville, and although she did not make a formal debut, has been identified with the young social set. She spent the year following her graduation in Europe. Mr. Mulvihill was graduated from St. Louis University, and served as an officer of artillery during the war. Mr. and Mrs. von Brecht and their family recently returned from Douglas, Mich., where they spent the summer.

Mrs. Thomas M. Pierce, 21 Vandeventer place, her daughter, Roberta, and her son, Dickson W. Pierce, are expected home Monday from Lebanon, Tenn., where they have been visiting Mrs. Pierce's mother, Mrs. Beards, for several weeks.

Mr. Howard L. O'Fallon of 4543 Pershing avenue, will depart today for a motor trip to "Red Gate," the O'Fallon home in Millwood, Va., to meet Mrs. O'Fallon, their daughter, Miss Mary, and their son, Howard Jr. They will go to New Haven to enter Howard Jr. in Yale for his freshman year, and later will visit in New York.

Mr. and Mrs. Benton H. Pollock, 5861 Enright avenue, returned Thursday night from Nantucket, Mass. Mrs. Pollock returned to the United States a month ago from Christiansted, in the Virgin Islands, where she accompanied her daughter, Miss Frances Pollock, for the latter's wedding to Dr. Joseph Malcomson of the United States Navy. Mr. Pollock met her in the East, and they have been motoring since.

Mr. and Mrs. Ingram F. Boyd of Ellenwood avenue, and their children, have returned from California, where they have been with Mrs. Boyd's mother, Mrs. Daniel F. Brown, and her daughters, Misses Sidney, Marjorie and Polly Brown. Mrs. Brown and the Misses Brown will remain in Southern California until the middle of October.

Mrs. Frank B. Coleman, 5042 Washington boulevard, and her daughter, Miss Marianne, and the Rev. Dr. and Mrs. Ivan Lee Holt, who have spent the summer traveling through Europe, will sail today from Belfast for Quebec. Miss Coleman, who was graduated with honors from Mary Institute in June, will remain in the East and enter Vassar College. Dr. and Mrs. Holt come direct to St. Louis, arriving here Sept. 15. Mrs. Coleman will be here late this month.

Public information from local steamship agents: Geo. F. Coleman, Gen. Agent, 200 N. 3rd St., St. Louis, Mo. Telephone: Bell Main 0711. Freight Apply, G. F. Dickerson, 2050 Railway Exchange Bldg., St. Louis, Mo.

PART THREE.

PERCE FIGHTING IN THREE SECTORS NEAR SHANGHAI

Added Fury Given to Conflict by Movement of Airplanes and Chinese Battleships.

By the Associated Press.
SHANGHAI, Sept. 5.—Fierce fighting in three sectors between the forces of rival Chinese Military Governors, contesting for possession of Shanghai, continues today, but added fury is given to the fighting by the movement of airplanes into the war zone and the reported concentration of Chinese battleships for action along the Yangtze River.

The major engagement appears to center between Kiatingchen and Luoh about 30 miles northwest of Shanghai. The outcome of this engagement is still doubtful, both sides employing artillery, according to the Lungwha military headquarters of the Chekiang Military Governor.

Reinforcements Go Forward.
Troops have proceeded from the Lungwha headquarters of Gen. Lu Yang Hsiang, Chekiang Tschun, to reinforce the Governor's defending troops at Swangsu, 15 miles west of here, where fighting continues.

Naval craft from Peking are reported moving down the Yangtze to aid the Fukien fleet, supporting the invading forces from the north. The Fukien fleet was reported in the Chusan Archipelago, southeast of Shanghai, several days ago, to intercept any aid from Chang Tso-Lin, Manchurian war lord. Chang, who is supporting the Chekiang Governor, is expected to dispatch aid to Hanchow by sea.

Reports reaching here from Peking and Mukden, Manchuria, said that Chang Tso-Lin had issued an ultimatum declaring that unless the Shieh-Yuan army "stops its march" on Gen. Lu Yang Hsiang, Chang will put his armies into the city. This is interpreted as prearranging a battle between the forces of the Pei-Fu and Chang in a separate conflict centering around Peking from which Gen. Chang was driven in his last battle with Wu Pei-Fu. Chang is supporting Gen. Lu, while Wu has lent his aid to the Shieh Yuan in the conflict around Shanghai.

Two American women distinguished themselves during the bombardment of Luoh yesterday. They were Miss Grace E. Crandall, a physician, and Miss Susie M. Burdick, a Baptist missionary at Luoh. Both refused to retreat with Red Cross units after the firing began. The women were rescued finally by an Associated Press correspondent who transported them to Shanghai with a number of wounded, while shells whistled overhead.

SINGAPORE OFFICIALS CALLED
Grand Jury Investigating Fall of Acts Summons Them.

SINGAPORE, Sept. 5.—Henry A. Phillips and E. J. Bullock of Chicago, both officials of the Sinclair crude oil purchasing company, were called today before the Federal grand jury here which is investigating further the official acts of Albert B. Fall. They were summoned at the request of the government's special oil counsel.

DRY LEADER'S LIQUOR SEIZED

Two Still Found in Raid on Home of Scotch Prohibitionist.
GLASGOW, Aug. 20.—Police who raided the house of John Rooney, leader of the local prohibitionists,

near Glasgow, discovered two secret stills and 25 gallons of whiskey ready for removal. Rooney was fined \$300, with the alternative of six months' imprisonment. Rooney is a carpenter, and was regarded as one of the most vigorous temperance leaders in the district. He denounced drink frequently from the platform as "a national curse." When the police raided the house, Rooney and his companions were found working at the stills.

PLAN TO INCREASE RESERVE BY 10,500 FOR DEFENSE DAY

Recruits Will Incur No Obligation Except to Participate in Demonstration Sept. 12.

WAR VETERANS TO BE IN LINE

Civic and Negro Organizations Also Prepare to Join Parade and Exercises in Forest Park.

A drive to recruit the One Hundred and Second Division, special army and corps troops, of the organized reserves, to its full strength in time for participation in the national defense day ceremonies, Sept. 12, will be launched Monday.

Col. H. D. McBride, secretary of the committee in charge of defense day activities, said today. The plan contemplates enrollment of 10,500 men, between the ages of 18 and 46, and will permit applicants to choose the branch of service or unit with which they wish to affiliate. No obligation further than participation in the defense day demonstration will be entailed. This demonstration will include a parade, in which the defense day committee desires to bring out as fully as possible the full defense power of St. Louis. It will be followed by a patriotic meeting at Art Hill, in Forest Park, where a program of addresses and music will be given. The festival chorus, under the direction of Frederick Fischer, and the festival band and orchestra will take part.

The parade, which will start at 3 p. m. from Lindell boulevard and Kingshighway, will be formed in three divisions. The first will comprise the Sixth Infantry, U. S. A.; Battery C, Fourteenth Field Artillery, U. S. A.; 138th Infantry, National Guard; Battery A, 12th Field Artillery, National Guard; the Naval Reserve units and the various units composing the 102d Division, special army and corps troops of the organized reserve.

Veterans to be in line. The second division will include organizations of veterans of the World War and former wars and, and auxiliaries and patriotic organizations, while the third will consist of civic and fraternal organizations, and citizens not identified with organizations.

A committee, representing local posts of the American Legion, has tentatively arranged that all post colors and flags will be in the parade, but members of the various posts will attach themselves to units of the reserve. This committee also requests that all veterans of the World War join the members of the legion in filling the various units of the reserve and that veterans who have worn their uniforms.

At a meeting of officers of the Naval Reserve, called Thursday night by Commander William McEwen, an invitation was extended to all men who have served in the navy to march with the Naval Reserve. Col. McBride has been advised that a score or more of the patriotic, fraternal and civic organizations of the city will participate in the demonstration. Two thousand members of the Order of De Molay will be in the line of march. Other organizations will include the British and Canadian War Veterans of America, Women's Overseas League, American War Mothers, Relatives' Auxiliary, Thirty-fifth Division, Council of Catholic Women, Alhambra Grotto, Young Women's Christian Association, St. Louis Safety Council, Hellenic Progressive League, St. Louis District, Missouri Teachers' Association; United Veterans' Legion, Jeffersonian Democratic Women's Club, Marine Corps League and the Optimist Club.

Negroes Also Will March. The Military Officers' Council, representing negro military, patriotic and fraternal organizations through its president, William T. Butler, has said that 1,500 members of negro organizations, in uniform, will be in the parade. The Missouri National Guard Air Unit will have a part in the demonstration. Col. John M. Pagle, commanding Scott Field, has informed the committee that the army flyers under his command will be represented. Headquarters for the National defense day committee are in Room 408, Old Custom House, Third and Olive streets.

Motor Caravan to Encampment. A motor caravan, taking mem-

for cooking
Bluhill

"NO FEARS ABOUT MISSOURI," SAYS CHAIRMAN SHAVER

Democratic Leaders Optimistic Because of La Follette's Inroads on German Vote in St. Louis.

Post-Dispatch Bureau, 20-23 Wyatt Building, WASHINGTON, Sept. 5.—John W. Davis, Democratic nominee for the presidency, will open the Democratic gubernatorial campaign in Missouri at Buncheon on the 1000-acre farm of Arthur W. Nelson, Democratic nominee for the governorship, Sept. 15, Chairman Shaver of the Democratic committee announced yesterday afternoon.

Chairman Shaver indicated that Davis would speak in St. Louis on his second Western tour in October. He said that the nominee would not stop in St. Louis this trip, but would continue from Buncheon to Des Moines, where he will speak Sept. 17, and then go to Northern Indiana where he is scheduled for three speeches. Missourians have made an effort to have the presidential nominee make more speeches in Missouri this trip, but it is believed that he will stick to the schedule outlined, saving his ammunition for his second Western trip, when he is expected to go into Illinois, Tennessee and Kentucky.

To Speak in New England. Before the second Western trip, Shaver said, Davis is expected to invade New England. He added that there are no plans now for a trip to the Pacific Coast.

When asked what the Democrats expected to do in Missouri to counter the activities of the Republicans, who were reported as "pouring money into the State," Shaver replied, "We have no fears about Missouri."

He did not elaborate on the statement, but Democratic politicians here have been optimistic because of gains Senators La Follette and Wheeler, the Independent candidates, are reported to be making among the German Republican voters, particularly in St. Louis.

Shaver, however, is not underestimating the La Follette-Wheeler strength, although he said he had not studied the victory of the La Follette ticket in the Wisconsin primaries Tuesday. In reply to the statement that the Independents would carry everything west of Wisconsin, Shaver asked, "How many electoral votes does that represent?" When told "approximately 70," he said, "well, they may get more than that."

Loss for Coolidge. With the possible exception of Montana in that tier of states, every electoral vote La Follette gets means a vote less for Coolidge, but the statement is significant because it conveys that, without regard to the prospects of Davis, Shaver believes Coolidge is bound for defeat. Seventy votes almost inevitably would throw the election into the House of Representatives.

Shaver said he had not heard the report that the Democrats would be willing to pass the word down the line for Davis in the event the election is thrown into Congress, as a trade for Republican votes for Davis.

Regarding campaign contributions and expenses, he explained that these matters were in the hands of Jesse Jones, national financial manager, but added "we are more than meeting expenses." He said that the announcement of the Missouri financial director would be made from New York.

Davis to Make Four Speeches From Train Tonight.

By the Associated Press. CHICAGO, Sept. 5.—After a conference here today with county chairman and other Democratic leaders of Illinois, John W. Davis will set forth this evening to begin his first drive in the West as the Democratic standard bearer.

Before returning here on Sept. 18 for a stay of a single day, Davis plans to deliver six set addresses and to make many rear platform talks. His itinerary as follows: Omaha, Neb., Sept. 6; Denver, Col., Sept. 11; Cheyenne, Wyo., Sept. 12; Topeka, Kan., Sept. 13; Buncheon, Mo., Sept. 15 and Des Moines, Ia., Sept. 17.

Enroute to Omaha he will make rear platform talks tonight at Rockford, Ill., Freeport, Ill., Galena, Ill., and Dubuque, Ia. After his speech at Omaha, Davis will go to Lincoln to spend Sunday with Gov. Bryan.

The nominee's visitors yesterday included a delegation representing the Jewish press and various Jewish fraternal organizations, and civic groups, who pledged their support.

Speaking for the delegation, Judge Harry M. Fisher, of the Circuit Court of Cook County, told Davis that his visitors admired "the brand of Americanism you represent."

"Unfortunately there are peculiar brands of Americanism," Judge Fisher said. "There is for instance, the brand that figures its Americanism in terms of percentages, 100 per cent, but forgets the principle. Then there is the brand of the old type, whole-hearted American, devoted to its institutions and high ideals. We believe that you have spoken on behalf of that type of Americanism and we are here to serve you."

"begins, for women, in the possession of that luminous bloom of richly lustrous hair! Every woman can possess it. She need only use a touch of henna in the shampoo." Just the right touch in

HENNAFOAM SHAMPOO

Cooling And Soothing For Tired Aching Feet

"Warm baths with Cuticura Soap, followed by gentle applications of Cuticura Ointment, will bring relief and comfort to tired, aching, irritated, itching feet."

the further operation of three county roadhouses were issued yesterday by Circuit Judge McElhinney at Clayton.

The places, named at the request of Prosecuting Attorney Jones, are Fauna Flora, on Manchester road, owned by Mark Gumbert; the saloon of Henry Somers, on Shady avenue, Brentwood, and a restaurant conducted by Charles P. Goering, on Kirkwood road, Kirkwood.

The injunction suits contend that gambling and drinking is permitted at these places, and characterized them as public nuisances.

Held as Mail Order Narcotic Head. NEW YORK, Sept. 5.—Dr. Carleton Simon, chief of the police narcotic division, announced last

French Hunting Season Open.

Correspondence of the Associated Press. PARIS, Aug. 15.—The shooting season in France is about to open, and there are evidences of good sport in prospect. Partridge, hare, quail and pheasant are plentiful, and the total of shooting permits issued breaks all previous records.

McCOY'S 'SECRET SON' COMES TO HIS AID

Former Fighter Held for Killing Woman, Talks of Boy, 30. He Has Never Seen.

Special of the Post-Dispatch. LOS ANGELES, Cal., Sept. 5.—

"How the ghosts of the past rise up to haunt a man." Overcome with the news that his son, Norman Selby Jr., 30 years old, business man of Connorsville, Ind., had come to his defense, Kid McCoy, famous prize fighter, lapsed into reverie and retrospection today in his cell in the county jail, where he is held charged with killing Mrs. Teresa

Morgan. "I'm glad he told the story and not me," McCoy murmured. He declared it was 10 years ago he was sworn to secrecy about his son "to save the good name of a woman."

"I've never seen this boy of mine," he continued. "I didn't know I had a son until he was 15 months old. Then I was told I could never see him. Did I doubt he was mine? Not for a minute. It has been the one secret of my life and now it has come to light."

"Say, that was mighty fine of the boy, under the circumstances, don't you think? To think he'd acknowledge me now, when I'm down and out, held on a murder charge. Say, he must have a lot of good stuff in him, eh?"

"Who was she?" That the "Kid" would not reveal. "I was sworn to secrecy," he said, "and I'll never tell. Her folks were pretty well fixed. You know how they are in those little towns in the Middle West. Comfortably well off."

"So Long Ago Now." "I was boxing for a month at the opera house there. Gosh, it's so long ago now. Just think; we were only kids. Her folks couldn't see me. I was only a boxer and didn't amount to much."

"Then I moved on to another town and we corresponded for a few weeks. One day the letters stopped coming. I wrote several times, but got no reply."

"Fifteen months afterward I received one letter from her. In that letter she told me that I had a son. She swore me to secrecy; said I was never to reveal it; that her

folks would not let her write to me and that I was to keep the boy near her or the child. I tried several times, but it was no use. So I waited through the years.

"Said He Looked Like Me." "Is she dead? I don't know. Never heard of her until today, through all the years, until this boy our boy, comes to my defense. She must have told him, some time or other, so maybe she is dead. She was a dear, sweet girl. A good girl, but she should have told me about the trouble ahead of her."

"She said he looked like me in that last letter she wrote."

GREEK CONSUL DISAPPEARS

Shortage of \$25,000 Reported in Chicago Office.

By the Associated Press. CHICAGO, Sept. 5.—Leonidas Matlis, Greek Consul General here, dropped mysteriously out of sight six weeks ago and is still missing, according to a story appearing in

the Herald-Examiner today. At the same time, the paper says, information has leaked out to the effect that a shortage of \$25,000 exists in the accounts of the consulate and that an investigation has been ordered by the Athens Government.

A new Consul General, Vasil Mammoneas, has been named to succeed the missing consul and he took charge yesterday.

Tanaka May Be Envoy. By the Associated Press. TOKIO, Sept. 5.—The Japanese

vernacular press today points out an Ambassador to Japan to the United States, succeed M. Hanihara, is Tokichi Tanaka, former

counselor of the Japanese embassy at Washington and now at Seattle, Wash. He is considered the probable appointee.

Former Ambassador from Berlin, and Tunes Mammoneas, present vice minister in the new Cabinet, are also being

GIRL TAKEN FROM ESCORT IN AUTO AND ATTACKED

Four Men Held Confess Part in Assault on Dorothy Hale, 19, Police Say.

TRACED THROUGH AUTO LICENSE

Identified by Victim and Companion — Prisoners Said to Blame "Big Drunk" for Actions.

Following identification by their victim, and their reported confessions that they had participated in a criminal attack upon a young woman, after hiding up her escort in St. Louis County early yesterday morning, two married and two single men are being held by the police here for county authorities.

The prisoners are Travis Watts, 42 years old, married, a machinist, of 2811 Laura avenue; Thomas Spalding, 22 years old, single, a fireman, of 5948 Lucile avenue; and John Muhr, 20 years old, single, a laborer, of 5949 Harney avenue, all of whom are said by the police to have admitted they attacked the young woman; and Harry Dorenkamp, 31 years old, married, a carpenter, of 5911 Theodore avenue, who confessed the police say to standing guard over her escort during the assault.

Circumstances of the holdup and attack, as related to the police by Miss Dorothy Hale, 19 years old, of 2305 North Fifteenth street, and Claude Winters, 23 years old, of 2323 Belt avenue, are substantially as follows:

Winters and Miss Hale were riding in Winters' automobile on the new Hall's Ferry road, when, at a point near the old Hall's Ferry road, a fire was punctured. Winters fixed it, and had just returned to the machine when a Chevrolet automobile, containing four men, drew up and stopped.

Posed as Policemen. One of the men, later identified as Watts, came over to Winters' car, announced "We're county officers," flashed a badge of some kind, and called to a companion, "Lieutenant, come here. Search this man."

The "lieutenant" came over. Winters was searched, a fountain pen taken from him, and he was marched a short distance up the road, where Dorenkamp is said to have stood guard over him. Winters told police he saw no weapon, but that his captor held his hand under his coat as if pointing a revolver at him.

The other men pulled Miss Hale from the car and dragged her, resisting as best she could, away from the road. After the attack the men got in the Chevrolet and drove away.

Winters memorized the license number of the machine before the four men left. He then drove Miss Hale to the Baden sub-station of the mounted district and reported to the police. Miss Hale was taken to a hospital, where physicians confirmed her story.

Traced Through Auto License. Meanwhile, the license number of the Chevrolet had been traced to Dorenkamp. Sgt. Smith, on his way to arrest Dorenkamp, saw Watts, Muhr and Spalding standing on a street near Dorenkamp's home, and took them into custody because they answered the descriptions given by Miss Hale and Winters.

Later, Miss Hale and Winters identified all of the men, who are then reported to have confessed. They blamed "a big drunk" for their actions, the police say.

PRESIDENT DEVOTES TIME TO GOVERNMENT BUSINESS

Cabinet Meeting and Conferences With Officials Occupy Executive's Attention.
By the Associated Press. Sept. 5.—Government business took up practically the entire attention of President Coolidge today, with the regular Cabinet meeting in the morning and other officials on his engagement list.

Mr. Coolidge has been devoting considerable attention to his plan for investigating agriculture through a commission and it has been indicated he would announce the personnel of the commission soon. He also has asked for additional data on the report of the Tariff Commission regarding the sugar duty, but a decision on this is not expected immediately.

The President will leave tomorrow by automobile for Baltimore, where he will deliver an address at the unveiling of the Lafayette statue. He will return immediately after the exercises.

Further encouraging reports on the political outlook were presented to Mr. Coolidge yesterday. Senator Harrell of Oklahoma declaring his State would go Republican, both in the presidential and senatorial contests.

The "good wishes" of the Lithu-

Strike Closes Sonora Schools.
By the Associated Press.
NOGALES, Sonora, Mexico, Sept. 5.—Public schools throughout the State of Sonora are closed as the result of a general strike proclaimed by school teachers. The strike went into effect when the State failed to meet the demands of the teachers for salaries due amounting to approximately 100,000 pesos or to make provision for guarantees for final payments. Many of the teachers have received no salaries for last year's work.

REPUBLICANS FEAR HEAVY DEFECTION OF NEGRO VOTERS TO SUPPORT OF J. W. DAVIS

Organize Special Bureau at National Headquarters to Keep Colored Women in Line as Signs of Break Increase.

By CHARLES G. ROSS, Chief Washington Correspondent of the Post-Dispatch.

CHICAGO, Ill., Sept. 5.—They are a cocky lot, the Republicans at the Chicago headquarters of the national party organization. They exude optimism. They say, for instance, that Indiana, which most impartial observers rate as a highly doubtful state, is a cinch for Coolidge; that Missouri will go for him beyond a doubt, and that with wheat bringing the farmers \$1.25 a bushel, he has better than an even chance to defeat La Follette in Minnesota.

These are some of the items in a general claim that Coolidge will sweep the West, with the possible exception of the two states that nearly everybody concedes to La Follette—Wisconsin and North Dakota.

At least one fly, however, is plainly to be seen in the ointment of Republican confidence. This is the fear that negro voters, in appreciable numbers, are about to jump the reservation from Ford.

On top of disquieting news of negro disaffection in Indiana, due to the alliance of the party organization of that State with the Ku Klux Klan, have come two concrete evidences of a threatened drift of negroes away from the party fold. One was the recent statement by former Federal Assistant Attorney-General Lewis, a Boston negro who incidentally was a classmate of President Coolidge at Amherst, that he intended to support John W. Davis. The other was a similar announcement by the editor of the Afro-American, a negro journal published at Baltimore, with a circulation of 40,000.

It is axiomatic in a political campaign for the rival managers to claim everything in sight. Hence, it is not surprising to hear the Davis people agree that the Democratic nominee is entitled to and will receive a large negro vote for four reasons: namely, his part in defeating a proposed "Jim Crow" law in West Virginia, his successful attack on the Oklahoma "grandfather clause" while he was Solicitor General, his pledge in his acceptance speech to make political appointments without regard to race or creed, and, finally and most importantly, his clean-cut Sea Girt statement against the Klan.

To all of this, the La Follette camp replies that the Wisconsin Senator is better entitled to the colored vote because he was the first of the candidates to denounce the Klan by name. Davis, according to this version, was forced into line by the original La Follette declaration.

Republican organization officials will not concede that there is any danger of Coolidge's defeat, from any cause whatsoever, but the more candid among them are frank to admit the prospect of diminished negro support on account of the Klan issue. Though defending the failure of Coolidge to follow the lead of La Follette and Davis in condemning the Klan by name, they recognize that this course has complicated the hitherto simple job of lining up the colored vote for the Republican candidates. Another unpleasant political reality that must be reckoned with, as they also publicize Congress to pass the Dyer anti-lynching bill.

Special Bureau Organized.
More eloquent than the cautious words of the Republican organizers in dealing with their new negro problem is the fact that they have found it desirable to set up a special bureau designed to bring negro women to the polls for Coolidge and Davis.

This unique campaign institution is one of several co-ordinating bureaus in a department of women's activities headed by Mrs. A. T. Hart of Kentucky, vice chairman of the Republican National Committee. There is also, in the same highly specialized department, a bureau to organize farm women, of which Mrs. Charles C. Schuttler of Farmington, Mo., has lately been appointed the head. One gets an impression in the offices of Mrs. Hart and her assistants, that no expense has been spared to put the women's department on a plane of high-powered efficiency. Two clergies that Mrs. Hart dispenses across her desk are of excellent quality.

One desires, perhaps, to see the negro woman's bureau. The efficient young woman press agent of the department makes an appointment for the caller with the head of the bureau, and another young woman acts as escort and performs the introduction.

perhaps 50 or 55, with reddish skin and hair, and keen, shrewd eyes. She has already been described to the visitor as Miss Hallie Q. Brown of Ohio, who for four years was head of the National Association of Colored Women.

The caller suggests that Miss Brown might appropriately be called the leading colored woman of the United States. She deprecates the compliment, but her assistant, a young colored woman, speaks up, proudly: "Yes, not only that, but the leading colored woman of the world."

Miss Brown is asked whether the colored women voters are likely to desert the Republican party.

"I have their ear," she replies, "and they will follow me."

As in almost every other political bureau, of whatever party, one receives here a "press release" this is entitled "a call to action" to the colored women voters of America.

It exhorts all colored women to go to the polls and vote for Coolidge and Davis.

"There are, it says," probably enough colored women of voting age to swing a close election. The timid, the negligent, the stay-at-homes are the ones who defeat a ticket.

"There were, 2,720,400 colored women of voting age in the United States in 1920. Of these, more than 1,000,000 are in the Southern states, where voting rights are often denied them."

Yes, the negro vote is of interest to the Republican party, and never more so than now.

Southern Baptist Educational Head.
BIRMINGHAM, Ala., Sept. 5.—Dr. J. W. Cammack of Richmond, Va., was elected secretary of the Educational Board of the Southern Baptist Convention to succeed Dr. W. C. James of Birmingham yesterday.

RIVALS THE BEAUTY OF THE SCARLET TANAGER

The Pen that's Worth Its Weight in Gold!

Along Life's Whole Career
Its Jewel-Smooth 25-Year Point
Gives Your Hand the Speed and Character
That Win with the World

YES, every day new situations arise when the unerring Parker Duofold is worth its weight in gold! When this hand-size, rapid jewel-smooth writer beats the clock to the finish—to close a deal, pass a test, complete the work in hand, or catch the last mail.

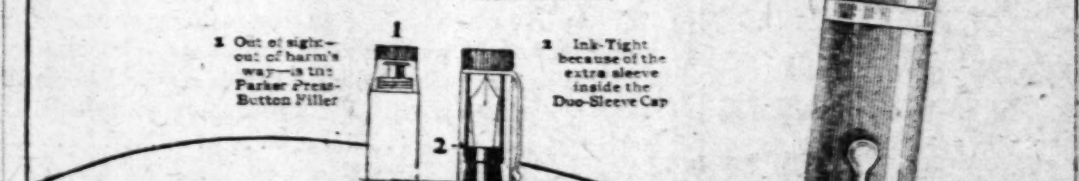

Its Over-size Barrel holds that extra ration of ink that can save the day in a crisis. And the "Lucky Curve" feed—Geo. S. Parker's creation—delivers the ink with sure-fire certainty.

Compared to such results, what is \$7 for the Over-size Duofold, or \$5 for the Duofold Jr. or slender Lady Duofold? Better replace your old pen with this inspiring Classic.

If not mistreated, we guarantee its jewel-smooth point for 25 years' WEAR. Its black-tipped lacquer-lined barrel wins instant respect wherever it is seen. And its color makes it hard to mislay.

Any good pen counter will sell you Parker Duofold on 30 days' approval. Step in and get it—gain what it has to add to life.

AV. WIDENING DAMAGES \$504,825

Project Covering About 10 Blocks to Cost the City \$97,474

Commissioners appointed by the Court to determine the damages to property resulting from the proposed widening of Easton avenue, between Washington and Prairie avenues, completed their findings and preparing a report which will be filed in Circuit Court in about two weeks.

The total damages in the district assessment are placed at \$504,825. Of this amount, property owners who are adjudged benefited by the improvements will be assessed \$407,349, and the city will pay the balance of \$97,474 out of the bond issue, providing funds for street widening.

Details of the project calls for widening the profile of the street from 20 feet to 30 feet over a distance of 10 blocks. From Leffingwell to Cardinal avenue a 20-foot widening will be taken from the south side of the street; a portion will be taken from both sides and from the north side.

The widening of the street will be made on the north side. The widening of the street will be made on the north side. The widening of the street will be made on the north side.

**CLAMS CRONY'S POSSESSIONS
AN HOUR AFTER SUICIDE**
Ferdinand P. Croney, 67 years
old, a brewery worker, of 3014
Wisconsin avenue, who frequently
talked of suicide after prohibition
threw him out of regular employ-
ment, got up from a bench, on
which he had been sitting with a
"crony" in Benton Park yesterday
afternoon, handed the friend a

Green
River**
THE SNAPPY LIME DRINK
AT ALL
FOUNTAINS BOTTLED

package containing his false teeth,
walked behind a bush and killed
himself with a revolver shot
through the mouth.
An hour later the "crony," Rich-
ard Weber, 60 years old, of 2310
South Tenth street, went to Peter-
selle's room and began removing
his old friend's clothing and other
belongings, against the protest of
the woman who conducts the
house. The police were called and

**Webster exhibited a note, purporting
to be Peterselle's will, bequeathing
all of his possessions to Weber.
After the secretary of the Brew-
ery Workers' Union, of which both
men were members, had said the
"will" was in Weber's own hand-
writing, Weber admitted writing it
himself, but declared he did so
yesterday morning at Peterselle's
direction, because the latter
couldn't write English. He said he**

did not know that Peterselle had
a revolver when he left him in the
park. Weber is being held while
the police investigate.
Grocer Robbed of \$120.
William Schmidt, grocer at 804
Morgan street, was robbed of \$120
in cash by three youths who in-
vaded his store at 8 p. m. yester-
day. The robbers ordered sausage,
and while Schmidt was wrapping
it, each produced a revolver. One
of the youths turned out the lights
and another took the money from
an open safe.

RECEIVERSHIP SUIT FILED AGAINST 24 OIL COMPANIES
New York Creditor Brings Action Against Middle States Oil and Its Subsidiaries.
By the Associated Press.
TENNESSEE, Sept. 5.—Receivership proceedings against the Middle States Oil Corporation and 23 other concerns with combined assets approximately \$50,000,000 were filed in U. S. District Court here yesterday by Joseph A. Phelan, a New York creditor. Phelan claims the Middle States Co., a Delaware corporation, is indebted to him in the sum of \$6750, the unpaid balance of an original indebtedness of \$11,250 incurred in May of this year. The application for a receiver is based on the assertion that the interest of the petitioner and other creditors is endangered through the alleged intermingling of the affairs and transactions of the two dozen companies involved. Similar action against the Middle States Co. and its subsidiaries was taken in the United States District Court at New York recently when a receiver for the company was appointed. The companies involved in the suit filed here control extensive oil properties in Arkansas, Oklahoma, Texas and Kansas, according to Phelan's petition, which indicates that similar suits are contemplated in other jurisdictions. The Middle States Oil Corporation is capitalized at \$48,750,240. Its assets were listed in its petition at \$55,000,000, including stock owned in the smaller companies.
Book 1-4 by 1-2 Inch.
Correspondence of the Associated Press.
ELBERFELD, Aug. 17.—An opera singer of this city possesses what is said to be the smallest book in the world. Its dimensions are one-quarter of an inch by one-half inch. It contains German poetry and is entitled "Almanac on the year 1837."

YOUNG IN BERLIN TO SET THE DAWES MACHINE TO WORK
Compact Organization to Be Formed and Turned Over to Reparation Payment Agent Gilbert.
By SAMUEL SPEWACK.
A Staff Correspondent of the Post-Dispatch and New York World.
Copyright, 1924, by the Press and Publishing Co., Inc., New York, World and the Post-Dispatch.
BERLIN, Sept. 5.—Owen D. Young, temporary agent-general for reparations payments, has arrived in Berlin to set the machinery of the Dawes plan going. Before he leaves he will organize for his successor, Seymour P. Gilbert Jr., of New York, permanent reparations agent, "a small compact machine of a few, but competent men." Young stressed the intention of avoiding bureaucratic growth in working out the project. In a statement to newspaper men he said: "It must give a feeling of relief and satisfaction to the world and to Germany to know that the initial steps will now be taken in Berlin to inaugurate the London agreement and the Dawes plan. Quite apart from the merits or faults of the plan itself, it has already afforded a basis of accord, not only between the allied governments but also with Germany." "It represents a real understanding of equals after full debate and important concessions. Whether the plan is as good as its most enthusiastic supporters say or whether it is as bad as its worst enemies believe, it not nearly so important as the fact that the interested parties are acting in a spirit to make it work." Young expressed satisfaction that Germany, by paying the first 20,000,000 gold marks, showed a "good example" and was convinced that the allies in their measures would be equally as prompt. Expressing satisfaction over the fact that Gilbert had been named permanent agent-general, he said: "We could find no better man to undertake this difficult and burdensome task. His experience, impartiality and judgment, clearness of mind and unselfish spirit are guarantees of a successful administration." Rufus C. Dawes, Andrew MacFadyen and a number of reparation experts, arrived with Young from Paris.

Underwriting of Loan Awaits Invitation; Industries Want Funds.
By the Associated Press.
NEW YORK, Sept. 5.—Further progress in the underwriting of the American portion of the \$200,000,000 international loan to Germany awaits a formal invitation from the German Government to bankers to participate in the sale, an international banker whose firm will take an active part in the flotation said. Consideration of the terms, he indicated, would not take place until all ports in the reparations agencies had been filled and the machinery of the Dawes plan put into full operation. J. P. Morgan and Thomas W. Lamont of J. P. Morgan & Co., who now are on a vacation abroad, probably will be called into conference later this month to arrange for American participation. Recent cable dispatches from London have indicated that the loan will be sold on an 8 per cent basis and this figure has been accepted by bankers here as the interest rate likely to be fixed. While Oct. 15 recently was suggested as the probable date of the offering here, predictions are made that it may be delayed until later in the month. German Factories Need Money.
Loans and credits for upward of \$100,000,000 are being sought by German industries from American banks and active negotiations which may result in the extension of a large number of these credits are in progress, it is learned. One of the latest inquiries is from the Badische Anilin and Sodafabrik Co., a German chemical and dye concern, which is seeking \$4,000,000 in New York. Hundreds of letters asking for commercial loans ranging from small amounts to millions of dollars have been received in the last fortnight by banking firms which have taken an active part in German financing. Including the Equitable Trust Co., Hallgarten & Co. and Zimmerman & Forchay. German potash and sugar industries recently were granted credits aggregating about \$10,000,000 in addition to the \$25,000,000 made available to German trade through the gold discount bank organized by Dr. Hjalmar Schacht. Army of Occupation Now in the Ruhr Only 22,000 Men.
By the Associated Press.
BRUSSELS, Sept. 4.—France's army of occupation in the Ruhr at the present moment comprises 22,000 men, according to trustworthy authority. The army originally numbered 45,000. PARIS, Sept. 5.—The Reparation Commission has decided that during the execution of the Dawes plan, the Committee of Guarantees would not exercise the attributes conferred upon it by the treaty of Versailles and by the schedule of payments of May, 1921.

Big

In the merc school Ana relax news coun That by the papers in EVENING morning papers Million This up by the livers to the mos Comp nation

The Acceptance of the Big Evening Newspaper in the Centers of Population

In the thickly populated areas where the early morning call of commerce sends the members of the family group scurrying to banks, factories, offices, schools, stores and workshops—scant, if any, attention is given to morning reading.

Analysis shows that it is in the evening when the reunited family relaxes from the business duties of the day that the newspaper—the big EVENING newspaper—joins the group IN THE HOME as an invited and welcome guest, counselor and buying guide.

That this applies to homes of every class is shown by the superior city circulation of the big EVENING newspapers in the 21 largest cities of the United States. These big EVENING newspapers have 52% greater coverage than the first morning newspapers in the same cities. The EVENING newspapers have a combined city circulation of 3,192,980—over a Million more than the morning newspapers.

This compact and more thorough coverage, built up by the preference of the readers themselves, offers and delivers to advertisers the world's most productive, and therefore the most profitable and economical advertising force.

Comparisons show that advertisers throughout the nation have learned the reading habits of the American public

and consequently CONCENTRATE the major portion of their appropriations in EVENING newspapers.

In 1923 the EVENING newspapers in the cities analyzed carried 54% more paid advertising than the first morning papers in the same cities, and the increase in newspaper advertising in 1923 over 1922 was nearly 100% greater in these big EVENING newspapers than in their nearest morning contemporaries.

Reader preference for the big EVENING newspaper makes compact circulation—and compact circulation makes the CONCENTRATION of advertising most profitable.

This is particularly true in St. Louis where the Post-Dispatch, because of a superior and more compact circulation, carried over 70% or 9,000,000 lines more advertising than the first morning paper in 1923.

PIMPLES ECZEMA ERUPTIONS

Prompt, Sure Relief Guaranteed by Mercirex

YOU TAKE NO RISK

Don't suffer with a pimply face or distressing skin troubles another day! Ask your druggist now for Mercirex Cream—a remarkable new skin cream that really heals! Mercirex is guaranteed! No matter how serious your trouble—no matter how long you've had it—we positively guarantee Mercirex to clear your skin—or we'll refund your money!

Mercirex has made good wherever tried on any local skin disorder. Physicians have used it for the most stubborn cases of eczema, pimples, blackheads, boils, rashes, ivy poisoning, sores and other skin disorders, with absolute success. Mercirex will clear your skin—pleasantly. It is not a messy, greasy, dark ointment that stains linen or advertises your trouble to others. It is a fragrant cream, delicately fresh tinted. It disappears immediately you apply it, vanishing to the true skin beneath the surface, where most skin troubles originate.

Do not confuse Mercirex with uncertain patent medicines. It is a professional product of proved merit, developed by one of this country's oldest scientific institutions. Buy Mercirex to-day on our absolute guarantee. You take no risk. But you will get a clear, beautiful skin—the kind you envy in others. Mercirex Cream is only 75 cents the jar. At druggists. Write for free book on the care of the skin—The L. D. Caulk Co., Milford, Del. We also recommend Mercirex Soap, which is sold in special package of one jar of cream and two cakes of Soap—\$1.55 value for \$1.25.

24 REVOLUTIONISTS IN GEORGIAN REPUBLIC EXECUTED

Shot to Death for Attempt Made Last Friday Night to Overthrow Red Regime.

TIFLIS, Georgian Republic, Sept. 5.—Twenty-four leaders of antisoviet parties of the Georgian Republic, declared to have been responsible for the attempt made last Friday night in several towns and villages to overthrow the soviet regime, have been shot after they were condemned to death by the Georgian chieftains.

MOVIES BAR DEFENSE SPEAKERS

Chicago Film Men Say Patriotism Talks Would Annoy Patrons.

CHICAGO, Sept. 5.—Chicago motion picture owners, through Jack Miller, president of their association, have refused to allow speakers on patriotism to give four-minute talks in their shows on Defense day, Sept. 12. The refusal came in the face of an urgent request of the local Defense Test Committee.

Miller gave as his reason for the refusal that the talks would "annoy" the patrons and that "we can't afford it."

Fairy Escort for Itiner.

By the Associated Press. KANSAS CITY, Kan., Sept. 5.—Anthony F. Itiner, grand monarch of the Order of Veiled Prophets, and Judge of the Circuit Court in St. Louis, will have an escort of little girls costumed as fairies when he attends the interstate ceremonial of the Kansas and Missouri Grottoes here on Sept. 30. The patrol was organized yesterday.

Killed When Motor Car Overturns.

By the Associated Press. FULTON, Mo., Sept. 5.—Claude C. Fowler, 35 years old, of Mexico, Mo., insurance salesman and real estate dealer, was killed yesterday when his motor car overturned on the highway a mile north of Fulton. He is survived by a wife and child.

FINDS SON, AFTER 26-YEAR SEARCH, WORKING AS BELL BOY

Former Texas Rancher and Kin Reunited When Former Ranch-ers at Los Angeles Hotel.

By the Associated Press.
LOS ANGELES, Sept. 5.—When C. W. Baquet, 71 years old, former Houston (Tex.) rancher and Oakland (Cal.) contractor, registered at a hotel here, the clerk said: "Boy, show the gentleman up."
The bellboy, himself middle-aged, picked up the guest's baggage, then dropped the traveling bags to the floor and embraced the gray-haired guest. It was his father, from whom he had become separated in Texas 26 years ago, and who had made a nation-wide search for him. The son's name is C. W. Baquet Jr.

Killed When Auto Overturns.
Special to the Post-Dispatch.
FULTON, Mo., Sept. 5.—Claude C. Fowles, 35 years old, an insurance and real estate dealer of Mexico, Mo., was killed yesterday afternoon when his automobile overturned on the highway, a mile north of Fulton. Fowles was attempting to pass another car, driven by Roy Jeffries, also of Mexico, when the accident occurred. He was alone in the car. A wife and child survive him.

Young Woman Slain.
BIRMINGHAM, Sept. 5.—Miss Imogene Lee, 20 years old, was shot and killed here last night by Damon Edwards of Decatur, Ala. Edwards was arrested. Officials believe the shooting occurred after a quarrel.

BROOKLYN CLUB'S DRIVE FEATURES MAJOR LEAGUE RACE "WILLS B

Dodgers, Second To Giants, Have Won 13 Straight

Robinson's Team, 3 Points Out of Lead Has Won Four Double Bills in Row.

ANOTHER FOR VANCE

Star Right-Hander Gains 12th Successive Victory and 24th of Season.

By John B. Foster.

(Copyright, 1924.)
NEW YORK, Sept. 5.—Brooklyn is in second place and the Government at Washington still lives while Danny Vance, Brooklyn's star pitcher, is broadcasting victories and wide. Yesterday he won his twelfth game in succession and his twenty-fourth for the season. If he never finds another baseball "his season he has earned his 1924 pay."

There may be a pitcher who will beat him in percentage but the big leagues will be hard put to it to find one who will beat him in laboring for the cause and one who has as much ambition as Vance. This baseball artist is bent on having Brooklyn win the pennant if he has to win it alone and unaided.

One evening last June when Charlie Ebbetts was being kidded because his "cl" could not win and the Giants did, he finally announced that "we'll get that (Giants) crowd and beat 'em yet, before the season is over." This caused much merriment in Manhattan at the time, but it is not causing much now.

Win Eight in Four Days.
That Brooklyn team once so lowly that Govt. runs almost deserted it, is up now just three points behind the Giants and is making more noise than a brass band at a carnival. One more day like Thursday, and the Giants will be eating the Kefauver. When the Dodgers triumphed the Braves twice yesterday, they raised their winning streak to 13 in a row. Eight of the victories have come in the last four days. The record books fail to show any other performance similar to that of the Dodgers winning four consecutive double headers. The last reverse for Robinson's entry came on Aug. 24, when they dropped a pair to the Cardinals, the second by a 17 to 0 score. When the Dodgers started their spurt they were seven and one-half games out of first place.

The curse of Labor day must be descending on New York again. In 1914 they lost the first Labor day game and with it went the season's pennant. In 1924 they lost the first Labor day game and they have since been playing the kind of ball that cost them the 1914 pennant.

The Yanks have lost again, this time to the Athletics, and are two full games behind the Nationals. Both New York clubs seem to have scotched the percentage column. But one is laughing all the time in this baseball game. That's one reason why it never grows old. This year it's Brooklyn's and Pittsburgh's and Washington's turn to laugh.

Dodgers' Fortunate Changes.
Back in the old days when experienced managers made late season changes in the line-up in a last ditch effort to win the pennant, the wise men of the game held up their hands in astonishment. It was considered the worst possible strategy.

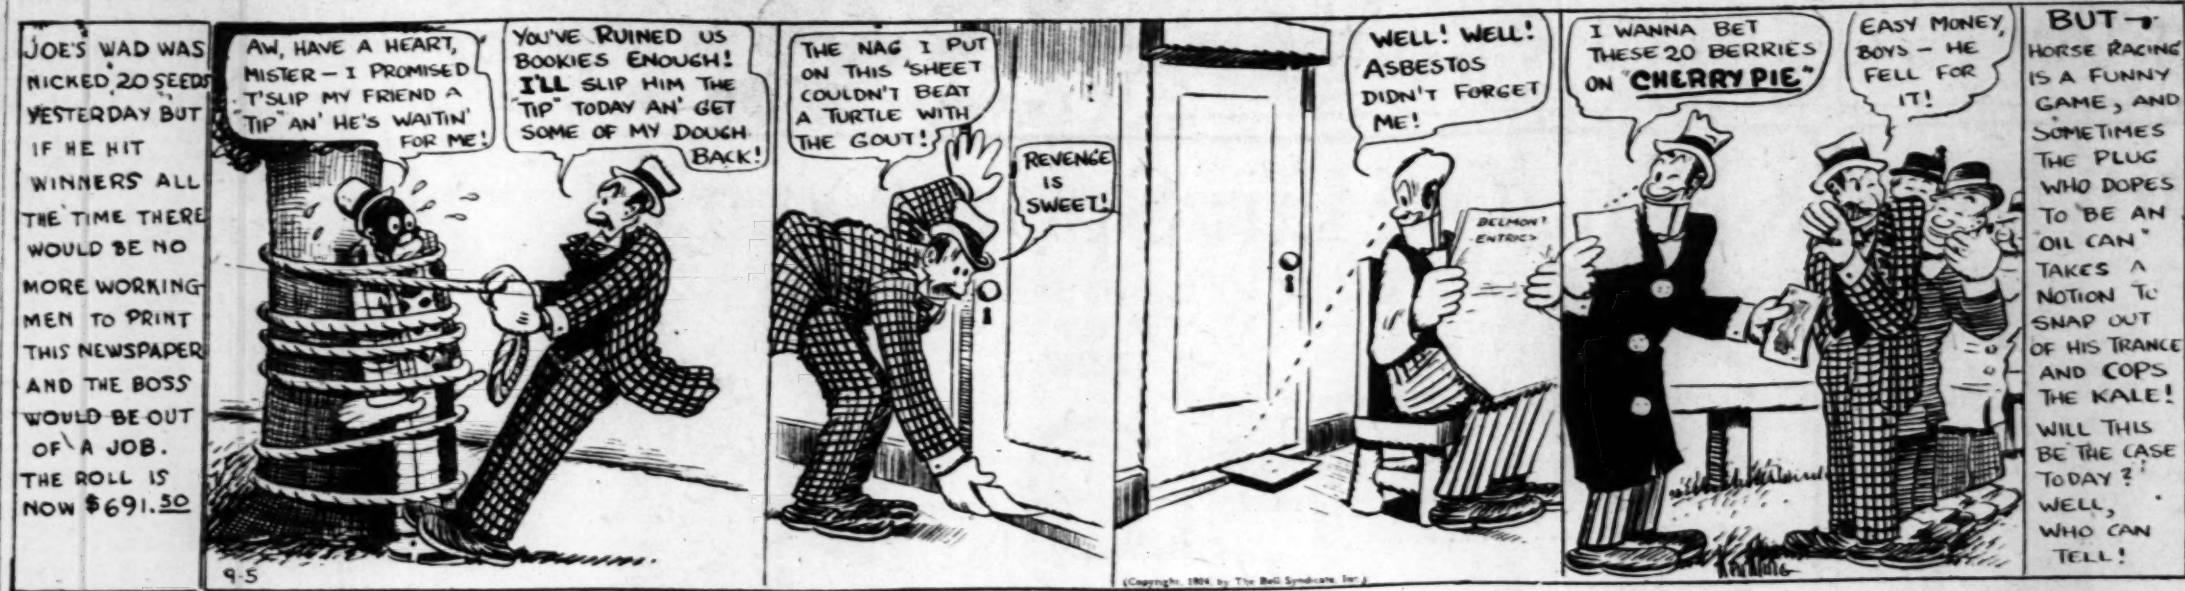

This year they are all doing it. But the most fortunate changes seem to have been those of Uncle Dobby in Brooklyn, which were really forced upon him. Stock at third, Mitchell at short, High at second—how's that for a combination? Yet don't forget that Stock and Mitchell have played on big league championship teams. And High has been a very brilliant light in Memphis. It's the old story of three experienced players coming together at just the right time to dovetail into each other's play.

Clark Griffith has pursued an outfielder for weeks and some of the time in vain. Huggins has worried about a pitching staff that is rusty in the joints and has added to it. McKeehan of Pittsburgh has tried as many combinations as there are joints in the fingers of his throwing hand, and McGraw has been shifting his players in an effort to get more batting power.

Probably in all the history of baseball there has been no manager who has attempted so many changes as Ty Cobb. He has turned outfield, infield and pitching staff upside down. Most of his players can play any old position and seem at home in it—whether they feel that way or not. . . . It is not at all an orthodox race—but it's some race!

JOE AND ASBESTOS—They Expect to Get a Cut of Something Sweet Today

—By Ken Kling

Miss Browne Gains Surprise Victory Over Miss Collett

California Tennis Star Wins Way Into Final Match in Women's National Golf Tourney — Meets Mrs. Hurd Tomorrow.

By the Associated Press.
NAYATT, R. I., Sept. 5.—Miss Mary K. Browne, Pacific Coast tennis star, who is playing in the women's national golf tourney for the first time, furnished a great surprise today by defeating Miss Glenna Collett of Providence, former champion and favorite to repeat.

The match went to the nineteenth hole. In the final round tomorrow Miss Browne will meet Mrs. Dorothy Campbell Hurd of Philadelphia, who, in the other semifinal match today, defeated Mrs. C. H. Vanderback of Philadelphia, 2 and 1.

Two masterful shots in the pinch gave Miss Browne the victory. One during playing the eighteenth, she put a spoon shot of 175 yards through two trees to within five feet of the pin, and won the hole. At the extra hole Miss Browne sank a putt of 15 feet, her ball caroming off Miss Collett's into the cup, after Miss Collett had just missed a putt two feet longer.

Miss Browne, who lives at Santa Monica, Cal., after winning national tennis titles, decided several years ago she would master golf.

Miss Browne's game has improved daily in her first national golf tournament and she has shown that she is an excellent match player. Qualifying with 96, a high score, due to fear of serious consequences from long shots, she decided when match play began that she would go for the pin whenever possible and the results have been excellent. None of the four opponents she has put out of the tournament has slipped without Miss Browne profiting by the errors. She advanced to the semifinals by defeating Miss Bernice Wall of Oakbrook, Wis., yesterday by five and four, the most decisive victory of the day. In addition, Miss Browne had the day's best medal for nine holes—a 41.

John Black of Wichita was two strokes over his first-round score, with a 79, while William Creavy of Oklahoma City bettered his first attempt by two strokes for a 78.

At Espinosa of Chicago, who led at the end of the first day's round, with a course record of 70, today fell off 10 strokes, seven of which he accumulated on the first nine, but his total of 154 tied him for temporary third place with Jack Burke of St. Paul, who shot 74 today.

Many of the players found the wind a disadvantage and slipped several strokes.

Qualifying scores follow:
Eddie Hurd, St. Louis, 72-148.
Abe Espinosa, San Francisco, 39-75-149.
Al Espinosa, Chicago, 42-38-80-150.
John McNamara, Lakewood, Wis., 44-41-85-163.
Craig Wood, Louisville, 41-38-80-154.
John Black, Wichita, 38-42-79-159.
William Creavy, Oklahoma City, 39-39-79-159.
W. G. Gordon, Rockford, Ill., 39-40-79-159.
Collins Munka, Ind., 42-37-160-159.
James Carberry, Chicago, 42-39-81-160.
Jack Gask, Coldwater, Mich., 41-46-82-169.
David Cairns, Chicago, 40-42-82-170.
Harry Mills, Kewanee, Ill., 41-43-80-171.
A. P. Weaving, South Bend, Ind., 43-40-83-177.
H. J. Webster, Madison, Mich., 44-42-87-179.
Charles Lavin, Mackinac, Mich., 50-46-92-188.
William Hurd, Upper Merion, Pa., N. J., and W. A. Hurd, Chicago, withdrew.
Jack Burke, St. Paul, 36-28-74-150.
W. H. Chapin, St. Paul, 41-40-81-159.
Herman Fiebig, Chicago, 40-40-78-158.
Bob Peebles, Lincoln, Ill., 37-37-76-136.
Ed Murphy, Chicago, 40-39-79-157.
Walter Abel, Chicago, 42-39-79-157.
Dave Spittal, Savannah, Ga., 39-42-82-161.
James Lawson, Chicago, withdrew.
Eddie Williams, Peoria, 41-43-84-161.
Lloyd Gullickson, Worthington, O., 41-40-81-161.
C. Anderson, Chicago, 39-41-80-159.
Ney Christian, Yakima, Wash., 44-40-84-168.
Norman Carr, Minneapolis, 39-39-78-161.
L. H. Christie, Joliet, Ill., 41-45-81-167.
E. McMillan, Minneapolis, 45-38-83-166.
L. E. Hall, Chicago, 44-43-83-172.
John Mayne, St. Louis, 41-40-83-162.

MRS. LINDEMANN IN MUNICIPAL SEMIFINAL
Mrs. Anna Lindemann of the O'Fallon Park Tennis Club reached the semifinal round of the women's municipal tennis championship by defeating Lillian Franks in straight sets, 6-2, 6-1.

As a result of her victory yesterday, Mrs. Lindemann will meet either Zeta Doyle or Virginia Baer, another O'Fallon Park entrant, in the lower bracket Elsie Stokoy will meet Marcella Gorin, while Florence Probert will oppose Ruth Sparks. The winners will enter the semifinal round.

KRAFT ONLY 5 BEHIND RUTH'S HOME RUN MARK
By the Associated Press.
GALVESTON, Tex., Sept. 5.—Charles Kraft of the Fort Worth, Tex., as League team, home-run king of the minor leagues, hit his fifty-fourth home run in the seventh inning of yesterday's game. Kraft now lacks five home runs of tying the world's record held by Babe Ruth.

Eddie Held Has Temporary Lead In Western Golf

St. Louisan Shoots 76 in Second Day's Qualifying Play and Leads With 148.

By the Associated Press.
CHICAGO, Sept. 5.—Eddie Held of St. Louis, an amateur, took temporary lead at the end of the second round of the Western open golf championship with 148 strokes, scoring a 76 today in spite of a cold wind that swept the Calumet links.

The Espinosa of San Francisco topped the scores returned by the professionals, when half of the field was in, by scoring 75 today for a total of 149.

Rob Peebles, Lincoln, Ill., returned the best score among the early finishers, scoring 76, which, with his 80 of yesterday, probably assured him of qualifying. Herman Fleibig, Chicago, with his second 78, equaled Peebles' total score, while Ed Murphy with a 79 totaled 157.

Jack Burke of St. Paul soon took the temporary day's lead from Peebles by scoring 74 for a total of 150. He went out in par 36, but so promise to shine brightly for the I. A. A. Co. is credited with having run 100 yards in 9.3 seconds.

Osborn Is Doubtful.
Harold Osborn, one of America's greatest point-winners in the Olympics, with victories in both the high jump and the decathlon, also is coming with the boys from Illinois. Whether he will compete is doubtful.

In the junior events today one of the most interesting battles is expected between Walter Blauberg of Newark and Hawkins of the New York Athletic Club, both of whom are coming with the boys from Illinois. Whether he will compete is doubtful.

The furlong finds Murchison and Leoney again meeting with the odds all in favor of the latter. That 220 should be a great race, tomorrow. The championship mark of 21.1-5, set by R. C. Craig at Cambridge in 1911, if conditions are all favorable, is sure to go.

As to the winner, well, we shall see. It's too difficult a thing to try to name him.

Paddock Expects 220-Yard Dash Record to Fall in Title Games

Mark of 21.1-5 That Has Stood Since 1911 Was Made by Craid of America in Meet at Cambridge, Mass.—Leoney, Murchison, Bowman, Paddock Himself and Others Entered.

By Charles Paddock, Former Olympic Sprint Champion.

NEWARK, N. J., Sept. 5.—Newark is welcoming the host of athletes who are here for the three-day national track and field championships, to be held here today, tomorrow and Sunday, at Colgate Field.

The ambitious juniors take the field today, the seniors have the field tomorrow, with the relay and all-around championships set for Sunday.

The Illinois Athletic Club is represented by the largest Western delegation, 18 men in all, including the renowned Joie Leoney, who will defend his national mile championship title for the ninth time.

Ray Dodge, a favorite in the half mile, also will be on hand. He did some splendid running in the Olympics and is expected to turn out one of the greatest half-milers of all time. Ray Watson, always dependable in the middle-distance events; Ray Baker, fourth of the famous "Rays," and Coe of Canada, Hubbard of Michigan, and myself, if I run as well as I did last Saturday.

The furlong finds Murchison and Leoney again meeting with the odds all in favor of the latter. That 220 should be a great race, tomorrow. The championship mark of 21.1-5, set by R. C. Craig at Cambridge in 1911, if conditions are all favorable, is sure to go.

As to the winner, well, we shall see. It's too difficult a thing to try to name him.

RACING RESULTS
Joe and Asbestos Win Today.

At Belmont Park.
Weather cloudy; track fast.
FIRST RACE, claiming, 3-year-olds and up, \$1000, mile and one-eighth, 1:10. (Babe) 10 to 1, 4 to 1, 2 to 1, 1 to 1. Second, \$1000, mile and one-eighth, 1:10. (Babe) 10 to 1, 4 to 1, 2 to 1, 1 to 1. LOWER TREND TO CORN

ON THE CHICAGO MARKET. Special to the Post-Dispatch. CHICAGO, Sept. 5.—Grain trade has dropped off of late. Outside speculative public is staying out of the market and local find it difficult to continue because of the reduced volume of business. The only marked change in price was noted in wheat, which exhibited a downward swing. Wheat exhibited a downward swing in price today and a slight recovery in price followed. Wheat exhibited a downward swing in price today and a slight recovery in price followed. Wheat exhibited a downward swing in price today and a slight recovery in price followed.

The following list of stock sales at prices with the lowest bid, and the highest bid, and the closing price, is given:

land for wheat was better today at \$1.25 a bushel, but the quantity was kept secret. The price of corn was \$1.00 a bushel, and wheat was charged at 5c to Buffalo and it was expected that the Canadian advances told of cancellation of the wheat contract. The price of the grade wheat billed to Shanghai was \$1.25 a bushel. Movement of wheat from the northeast to the south was of a volume, but winter wheat arrivals at the coast were small. The price of wheat increased in the visible supply.

Burling power gave out in wheat late in the day and north and central river lower. Wheat at \$1.34, corn at \$1.34 July.

Local cash sales were 500,000 bu. of wheat, 500,000 bu. of corn, 500,000 bu. of soybeans, 50,000 bu. of corn and 181,000 bu. of soybeans. The price of wheat was \$1.25 a bushel, corn \$1.00 a bushel, soybeans \$1.00 a bushel.

In corn trade was small and most of the crop was sold. The price of the trade later in the season gave the market a slight advance. The price of the crop was slightly higher, owing to the crop being sold at a higher price. The price of the crop was \$1.14 and December at \$1.15. The price of

Bond's Clothes

In All America—No Fall Opening Like Bond's More Styles! More Patterns! Greater Values

Ahead of Them All Bond's Hats

Fall style Hats that will give you the assurance that you are well dressed. You will find every possible color you can suggest—and what's more, you have the unrestricted choice of our entire stock all at one price.

\$2.85

Silk Lined

Bond's Caps \$1.50

Imported and domestic all wool fabrics—weather proofed

It's New
London Lavender
The last word in fabric color.

—and now Bond ushers in a real "he men's" Fall opening—with twice as many styles and fabric patterns as any store in this city. A Fall opening with the finest tailored clothes—at prices that we believe to be the lowest in America. A Fall opening that puts real tailored fine fitting—all-wool clothes within reach of every man who cares about his appearance.

Bond's Fall suits, topcoats and overcoats come direct to you from four great tailor plants—not through jobbers or middlemen. They left designing tables less than five weeks ago—many only a few days ago—they're months in advance of all others. They are priced direct to you at Bond's year-round prices—and not "marked up" to stand a "down" later in the season.

Scientifically Tailored Bond's One and 2-Pants Suits and Overcoats

Worth We Believe
\$10 to \$20 More

\$35.

We ask you to please compare Bond's tailored clothes with any high-grade standard brand of clothing. Compare garment for garment if you will—model for model—tailoring for tailoring, and we believe you will find that clothes selling for \$10 to \$20 more than Bond's—in many instances—do not come anywhere near the Bond high standard of tailoring construction. In justice to yourself—make this test! You'll save money and be a Bond booster for life.

Please
Remember

We have no charge accounts—we sell for cash only! We have no free deliveries. At Bond's you buy direct from the maker—and keep the middleman's profit in your own pocket.

Bond's Factory No. 1

Located in one of America's best men's fashion centers—Chicago—this factory was for many years the home of the famous "Fashion-Art" Clothes. This modern factory is now owned and operated exclusively by Bond's. Fashion Art Clothes retailed in the better stores everywhere for \$50 to \$100. The same organization, under the strict guidance of Bond's factory chiefs, is now producing Bond's tailored clothes exclusively.

IT HAPPENS IN THE BEST REGULATED FAMILIES—By BRIGGS

The Man on the Sandbox

by L. C. Brown

THE PASSING SHOW.

THE French sent over Epinaud to take our flyers' measure. They thought their famous drawing card could trim them at his pleasure. But when he met Wise Counselor, he bumped into his master And while possessing speed galore, The other horse was faster.

The Prince of Wales got on a horse And stuck there like a cactus; He chased the ball around the course While taking polo practice. His Royal Highness did not fall. His seat was firm and steady And a pleasant time was had by all. Including Albert Eddie.

Grand opera in the open air Has proven quite successful. One need not be a millionaire. In evening clothes distressful. The close proximity to Mart That has been noticed lately, According to the opera stars Helps the acoustics greatly.

NO MORE PARADES.

See where the circus has followed in the footsteps of the labor unions and discontinued the parade.

A circus without a parade is like a soup without salt. 'Taint right.

THE CHINESE WALL.

The circus lingers with us only three days now instead of a week as formerly, due, we understand, to the high license. Next thing we know they'll make St. Louis a non-stop town.

Circuses are supposed to take too much money out of town. The old protective tariff stuff again!

Every stranger within our gates should be searched before leaving town to see if he is carrying away any of our money.

Wonder how the Prince of Wales will look with a beard. It seems that whiskers go with the crown.

When Bill Tilden taught Vincent Richards how to play tennis he came within an ace of outdoing himself.

In the matter of reducing naval equipment Switzerland says she will go as far as any of them. That's the spirit!

Our world flyers didn't find Tickle as ticklish a place to land as Greenland.

Having negotiated the worst part of the flight the rest of the journey should be plane sailing.

FAVORITE STORIES

By Irvin S. Cobb

WHERE HE REALLY LEARNED TO RUN.

WHEN Cuban ball players first began to break into the big leagues, John McGraw, manager of the Giants, took on a routh from Havana who gave promise of developing into a good batsman and a swift baserunner. The recruit accompanied the team on the spring training tour where he showed considerable speed. But after the Giants had started back North for the beginning of the regular season was when the little brown-skinned chap really proved to his associates how fast he could travel.

To fill a date for an exhibition game, the players reached Macon, Ga., on a day when a reunion of Confederate veterans was being held. With the rest of the visitors the young Cuban lined up on a sidewalk curbing to watch the parade.

As the old soldiers came swinging down the street the little chap became enthused. The martial music, the dancing battle flags, the cheers of the crowd, the decorated store fronts, the patriotic spirit which filled the whole town appealed to his Latin blood.

"Great stuff, eh, kid?" inquired one of the older members of the club whose reputation as a practical joker still endures.

Almost too full of emotion for utterance the Cuban nodded.

"Well, then, I'll tell you how to make a hit with these people. Coming from a foreigner like you they'll appreciate it more. You just step right out there to the middle of the street and take off your hat and swing it 'round your head and yell out as loud as you can: 'Hurrah for Sherman!' If they don't seem to catch your meaning the first time just keep on yelling it. Sherman was one of our great American generals and these folks down here in Georgia are just crazy about him. All you have to do is just mention his name."

The guileless alien followed instructions. But he only had to yell once. It was immediately after that he demonstrated to Manager McGraw and all others present that he knew how to run.

DISCOVERY OF THE MORTAL REMAINS.

IT WAS a visiting Englishman, newly arrived in our land, who entered a table d'hôte restaurant in a Louisiana town with intent to dine. The establishment, being near the coast, specialized in sea foods.

To the stranger the two opening courses were both in the nature of novelties. However, he partook freely of the crawfish gumbo and the shrimp Creole. But when the waiter brought him an individual oyster party containing one large swollen Bayou Oyster enveloped in fluffy pastry, the Britisher's eyes widened.

Gingerly he touched the contents with his fork. Then, with an expression of mingled surprise and distress upon his face, he halted the head waiter, who chanced to be passing his table.

"What's de trouble, boss?" inquired that functionary, ranging up alongside.

"Really, I can't say," stated the startled patron; "but it would appear that something has crawled into my bun and expired there."

MANAGERS FOR LA FOLLETTE AIM TO RULE CONGRESS

This, Rather Than Election of President, Is the Real Hope of Their Campaign.

WOULD BE ABLE TO HAMPER COOLIDGE

Reports at Headquarters Are That Fight in West Is Between La Follette and President.

By CHARLES G. ROSS, Chief Washington Correspondent of the Post-Dispatch.

CHICAGO, Sept. 5.—As Congressman John M. Nelson, the La Follette manager, sees it, the fight in the West at present is between La Follette and Coolidge. Nelson is at one with the Republicans in refusing to concede any material strength to Davis west of the Mississippi River. Nor does he believe that Davis' current invasion of the Middle West will work any real change in the situation.

Outwardly, at least, the La Follette people in Chicago are hardly less confident than the Republicans. At their headquarters in the Morrison Hotel there is a constant incoming stream of La Follette crusaders, bearing rosy tales of growing Progressive sentiment in various parts of the country.

Among other things, Nelson has been told in the last few days that La Follette has an excellent chance to carry California, where Rudy Spreckles, the sugar magnate, is backing his campaign with something more than words. Embassadors from California say that the southern part of the State, in particular, is in "line shape." Hiram Johnson is described as still resting silent in his tent.

Situation in Iowa. The word from Iowa—and this is from a man of sound political judgment—is that La Follette would carry the State if the election could be held tomorrow. What the La Follette people fear is that during the next two months the Coolidge forces, by sounding the call of party regularity, will be able to win back a number of the disaffected farmers.

The corn is growing tall in Iowa and the price of wheat is up. The farmers are beginning to pay off their debts. These conditions are undoubtedly working for Coolidge. They give ground for Republican hopes. The La Follette people take courage from the known strength of the radical Brookhart in Iowa. They profess to believe that the Republican appeal for regularity at the polls will be ineffective.

On examination of the claims of both sides, it looks as if the result in Iowa is a toss-up between Coolidge and La Follette. Davis may be able to "sell" himself later, but at this writing he is third in the State.

Brookhart is one of the several candidates in this election who, in the expressive phrase of Congressman Nelson, are "wearing blinkers." That is to say, Brookhart is looking straight ahead at his own candidacy, and neither to the right nor to the left at the national contest. He is technically regular. He tells his audiences, in effect, that he will do as much for Coolidge as Coolidge will do for him, and he also tells them that Bob La Follette deserves their gratitude for having inspired the Teapot Dome disclosures.

Adams' Tactics in Colorado. Out in Colorado, so Nelson has been informed, Senator Adams, Democrat, a candidate for re-election, is pursuing similar tactics. Adams has a progressive streak. He was one of the principal aids of Senator Walsh in the conduct of the oil inquiry. Adams, as reported here, preserves his regularity by endorsing Davis, but lets his audiences know at the same time that "Bob La Follette is a fine fellow."

Nelson, and the other spokesmen for the La Follette-Wheeler campaign, scoff at the Republican claim that Coolidge will carry Minnesota. In their opinion, the President is no better off in Minnesota than in Wisconsin. Admittedly, however, Magnus Johnson, a candidate for re-election to the Senate on the Farmer-Labor ticket, is in serious danger of defeat at the hands of his Republican opponent.

The situation in Nebraska as between Coolidge and La Follette is similar to that in Iowa. In that State also there is a radical Senator, Norris, running for re-election on a nominal Republican ticket.
